1 MW 2015 Refurbished MTU 12V2000 P82L Marine Diesel Generator Set

1 MW 2015 Refurbished MTU 12V2000 P82L Marine Diesel Generator Set

Description

This marine diesel generator set is a high-performance marine-grade power generation unit designed for reliable operation in demanding environments. Equipped with the MTU 12V2000 P82L, a 12-cylinder V-type turbocharged diesel engine, this generator delivers 1 MW of continuous electrical power. Manufactured in 2015 and later refurbished, the unit has undergone restoration to extend its service life and ensure dependable performance. Built for marine applications, it features robust construction, compact design, and efficient fuel consumption, making it suitable for shipboard auxiliary power as well as coastal and offshore installations.

KEY FEATURES:

- Rated output: 1 MW
- Marine-type generator set with robust, corrosion-resistant design
- Integrated generator for stable and reliable electrical output

ADVANTAGES :

- Refurbished condition provides a cost-effective solution compared to new units
- Marine-grade durability for continuous duty under harsh conditions
- Suitable for auxiliary shipboard power or land-based coastal applications

Manufacturer	MTU
Model	12V2000 P82L
Year	2015
Condition	Refurbished
Location	Asia
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010679
Wattage	1 MW
Hours	Zero
Frequency	60 Hz
Fuel Type	Diesel
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
