33 MW 2018 Used Siemens SGT-700 DLE Natural Gas Turbine Generator Set

# 33 MW 2018 Used Siemens SGT-700 DLE Natural Gas Turbine Generator Set

## Description

This is a natural gas-fired turbine generator set manufactured in 2018, designed for high-efficiency power generation in industrial, utility, and combined-cycle applications. The unit features a Dry Low Emission (DLE) combustion system, allowing for reduced NOx emissions without the need for additional post-combustion treatment, making it environmentally efficient and suitable for compliance with modern emission standards. The turbine is coupled to a synchronous generator, providing reliable electricity for base-load, peak-shaving, or standby applications.

### KEY FEATURES:

- Rated output: ~33,000 kW (33 MW)
- Dry Low Emission (DLE) combustion system
- Suitable for continuous, peak, or standby operation

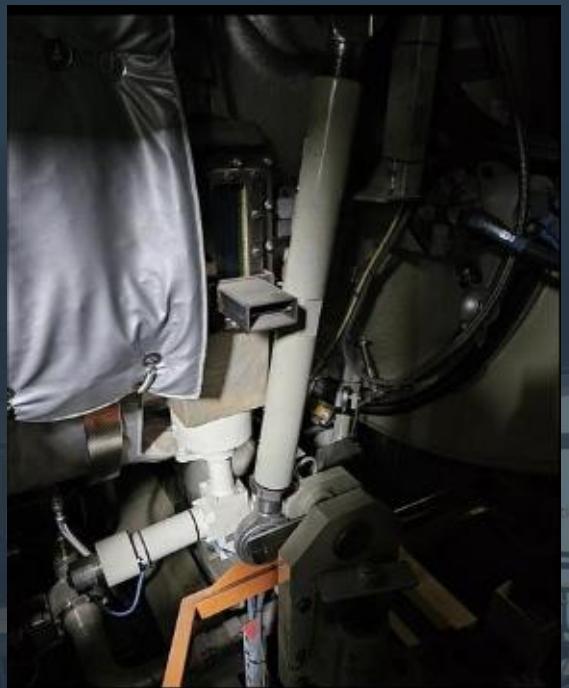

### ADVANTAGES

- High efficiency with reduced environmental emissions
- Reliable base-load and flexible operation for varying demand
- Minimal additional emission control requirements

<b>Manufacturer</b>	Siemens
<b>Model</b>	SGT-700 DLE
<b>Year</b>	2018
<b>Condition</b>	Used
<b>Location</b>	China
<b>Qty Available</b>	2 Units
<b>Category</b>	Natural Gas Generators
<b>Subcategory</b>	10 - 99 MW
<b>Stock Number</b>	USP010766
<b>Wattage</b>	33
<b>Hours</b>	7200
<b>Frequency</b>	50 Hz
<b>Fuel Type</b>	Natural Gas
<b>Voltage</b>	10500
<b>Balance of Plant Available? (BOP)</b>
