1.6 MW 2012 Refurbished Caterpillar XQ2000 Diesel Generator Set

1.6 MW 2012 Refurbished Caterpillar XQ2000 Diesel Generator Set

Description

These refurbished 1.6 MW diesel generator sets are built for dependable prime or standby power generation across industrial, commercial, and utility applications. Each unit has been professionally rebuilt to manufacturer standards using genuine parts and is packaged within a 40-foot sound-attenuated power module for ease of transport, rapid deployment, and reduced noise emissions.

Manufactured in **2012** and fully refurbished with **zero operating hours since rebuild**, the units are equipped with modern control systems and are supplied with a warranty for operational assurance. Packaged in power modules.

KEY FEATURES:

- Power output: 1,600 kW / 2,000 kVA
- Refurbished to OEM standards with genuine components
- Designed for prime or standby duty operation

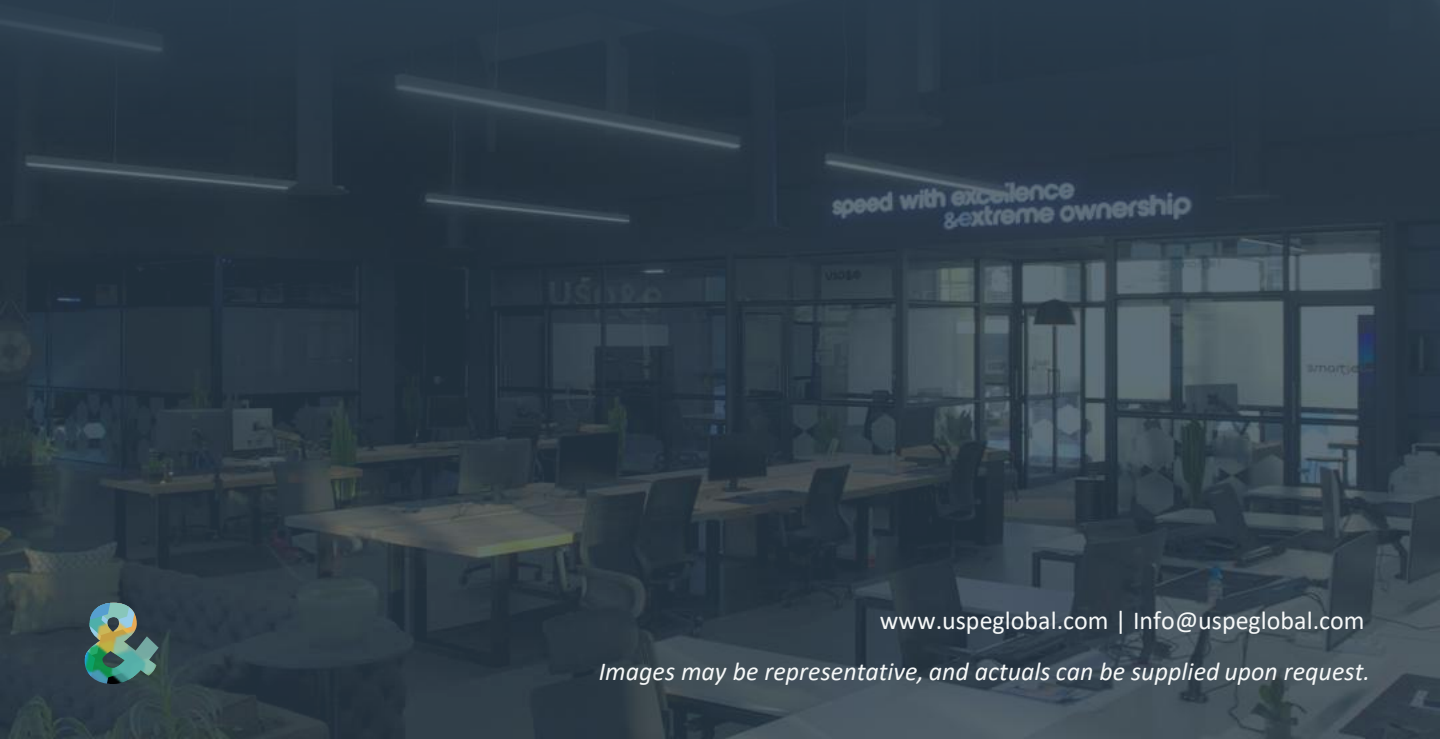

ADVANTAGES

- Quick installation and mobility through modular packaging
- Low operating noise and simplified maintenance access
- Reliable power solution for remote sites or temporary installations
