1.75 MW 2024 New Cummins QSK60-G6 Diesel Generator Set

1.75 MW 2024 New Cummins QSK60-G6 Diesel Generator Set

Description

This diesel generator set is a brand-new, heavy-duty power solution designed for reliable prime and standby applications in industrial, commercial, and critical infrastructure environments. This generator set delivers 1.75 MW at 60 Hz and 1800 RPM with a voltage output of 277/480 V. The unit features advanced High-Pressure Injection (HPI) fuel technology for precise fuel delivery, improved efficiency, and reduced emissions. Turbocharged with after-cooling and built with robust components like Ferrous Cast Ductile Iron pistons, it is engineered for long service life and dependable performance in demanding conditions.

KEY FEATURES:

- 1.75 MW (1750 kW) power output, 60 Hz, 1800 RPM, 277/480 V
- High Pressure Injection (HPI) electronic fuel system for efficiency and lower emissions
-

ADVANTAGES:

- Delivers fuel efficiency and reduced operating costs through advanced fuel system design
- Long service life with robust materials and proven engine technology
- Intelligent digital control enhances safety, monitoring, and ease of use

Manufacturer	Cummins
Model	QSK60-G6
Year	2024
Condition	New
Location	North America
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010667
Wattage	1.75.MW
Hours	Zero
Frequency	60 Hz
Fuel Type	Diesel
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
