1.5 MW 2014 Used MWM TCG2020-V16 Natural Gas Generator Sets

1.5 MW 2014 Used MWM TCG2020-V16 Natural Gas Generator Sets

Description

These natural gas generator sets are high-efficiency, medium-speed units engineered for continuous and combined heat and power (CHP) applications. Manufactured by MWM, these generator sets are designed to deliver reliable performance, low operating costs, and extended service life. They are well-suited for industrial facilities, utilities, and distributed power plants requiring dependable base-load or standby generation. The TCG2020 series is known for its advanced control system, optimized combustion process, and reduced emissions for environmentally responsible operation.

KEY FEATURES:

- Rated output: 1.5 MW
- Low-NOx combustion technology meeting global emission standards
- Suitable for continuous, prime, and CHP operation

ADVANTAGES

- Proven reliability and high operational efficiency
- Low fuel consumption with optimized gas mixture control
- Compact design allowing flexible installation in containerised or plant-based setups

Manufacturer	MWM
Model	TCG2020-V16
Year	2014
Condition	Used
Location	Asia
Qty Available	2 Units
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010652
Wattage	1.5 MW
Hours	99000; 120000
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
