SPECIFICATIONS

1.2 MW New Cummins KTA50G3 Diesel Generator Sets

Description

These generator sets are high-capacity, industrial-grade power solutions designed for demanding applications. Delivering robust and consistent performance. Each generator is brand new, unused, and configured for standby or prime power, with 0 hours of operation, ensuring long operational life from the outset. The KTA50G3 model is turbocharged and aftercooled, promoting optimal fuel combustion and engine efficiency. The sets are equipped with a Brushless Stamford alternator, intelligent digital control panel, and modular skid-mounted design for easier installation and integration. Built for reliability and durability in harsh environments, these units are suitable for both industrial and commercial power applications, providing a dependable and scalable energy solution with the proven engineering standards of Cummins.

KEY FEATURES:

- Mounting Modular Skid-mounted design
- Application- Prime or standby power use
- Cooling System Water-cooled for consistent engine temperature management

ADVANTAGES

- High Reliability proven Cummins engineering ensures dependable operation under heavy loads
- Fuel Efficiency Turbocharged and aftercooled design promotes efficient fuel combustion
- Easy Installation

Manufacturer	Cummins
iviaiiuiactuiei	Cultillinis
Model	KTA50G3
Year	N/A
Condition	New
Location	Eastern Asia
Qty Available	12
Category	Diesel Generators
Subcategory	1-9 MW
Stock Number	USP010161
Wattage	1.2 MW per unit
Hours	Zero
Frequency	50 Hz
Fuel Type	Diesel
Voltage	380
Balance of Plant Available? (BOP)	Soundproof canopy and Prime-standby
