1.4 MW 2005 Used Wartsila 9L20 Diesel Generator Sets

1.4 MW 2005 Used Wartsila 9L20 Diesel Generator Sets

Description

These diesel generator sets are medium-speed power units designed for reliable continuous and standby power generation. This series is widely recognized for its compact design, high efficiency, and robust construction, making it a proven solution for both industrial and marine-based power applications. Built for durability and long service intervals, these generator sets deliver dependable performance with reduced lifecycle costs. The 9-cylinder inline configuration, combined with turbocharging and charge-air cooling, ensures optimized fuel combustion and efficient operation across varying load profiles.

KEY FEATURES:

- Rated output: 1.4 MW
- Medium-speed, four-stroke diesel engines
- Designed for continuous and prime power generation
- Heavy-duty alternator for stable power supply

ADVANTAGES

- Robust construction suitable for continuous operation under demanding conditions
- Compact footprint with good power-to-size ratio, ideal for flexible installation
- Medium-speed design ensures durability and extended operating life

Manufacturer	Wartsila
Model	9L20
Year	2005
Condition	Used
Location	Asia
Qty Available	4 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010335
Wattage	1.4 MW
Hours	56500
Frequency	60 Hz
Fuel Type	Diesel
Voltage	440 Volts
Balance of Plant Available? (BOP)	-
