1.8 MW 2003 Used Mitsubishi S16R-PTA2S Diesel Generator Sets

1.8 MW 2003 Used Mitsubishi S16R-PTA2S Diesel Generator Sets

Description

These diesel generator sets are robust, medium-speed power units designed for dependable performance in both prime and standby power applications. Built by Mitsubishi Heavy Industries, these sets are recognized for their durability, fuel efficiency, and reliable operation under continuous load. Each unit features a high-performance S16R series engine known for its efficient combustion, low vibration, and extended service intervals. Suitable for industrial, utility, and backup installations, these generators deliver consistent power output with proven long-term reliability.

KEY FEATURES:

- Rated output: 1.8 MW
- Designed for continuous and standby duty operation
- Efficient cooling and lubrication systems for enhanced engine longevity

ADVANTAGES

- Excellent fuel efficiency ensuring reduced operating costs
- Flexible installation suitable for industrial and utility power solutions
- Quick-start capability and stable load response

Manufacturer	Mitsubishi
Model	S16R-PTA2S
Year	2003
Condition	Used
Location	China
Qty Available	8 Units
Category	Diesel Generators
Subcategory	1 - 9 MW
Stock Number	USP010737
Wattage	1.8 MW
Hours	800 - 850
Frequency	50 Hz
Fuel Type	Diesel
Voltage	380 Volts
Balance of Plant Available? (BOP)	-
