5 MW 1999 Used Centrax 501 KB7 Natural Gas Turbine Generator Set

5 MW 1999 Used Centrax 501 KB7 Natural Gas Turbine Generator Set

Description

This 5 MW natural gas-fired turbine generator set, manufactured in 1999, is a robust industrial power solution designed for continuous or standby operation. The unit is in good used condition, with approximately 43,000 operating hours, and has been regularly maintained by the OEM. Packaged with a soundproof enclosure, full balance-of-plant systems, and a reliable alternator, this turbine set offers immediate operational capability for industrial, utility, or commercial power applications.

KEY FEATURES:

- **Power Output:** 5 MW electrical generation capacity
- **Soundproof Enclosure:** Reduces noise for industrial environments
- **Engine Model:** 501 KB7 industrial gas turbine

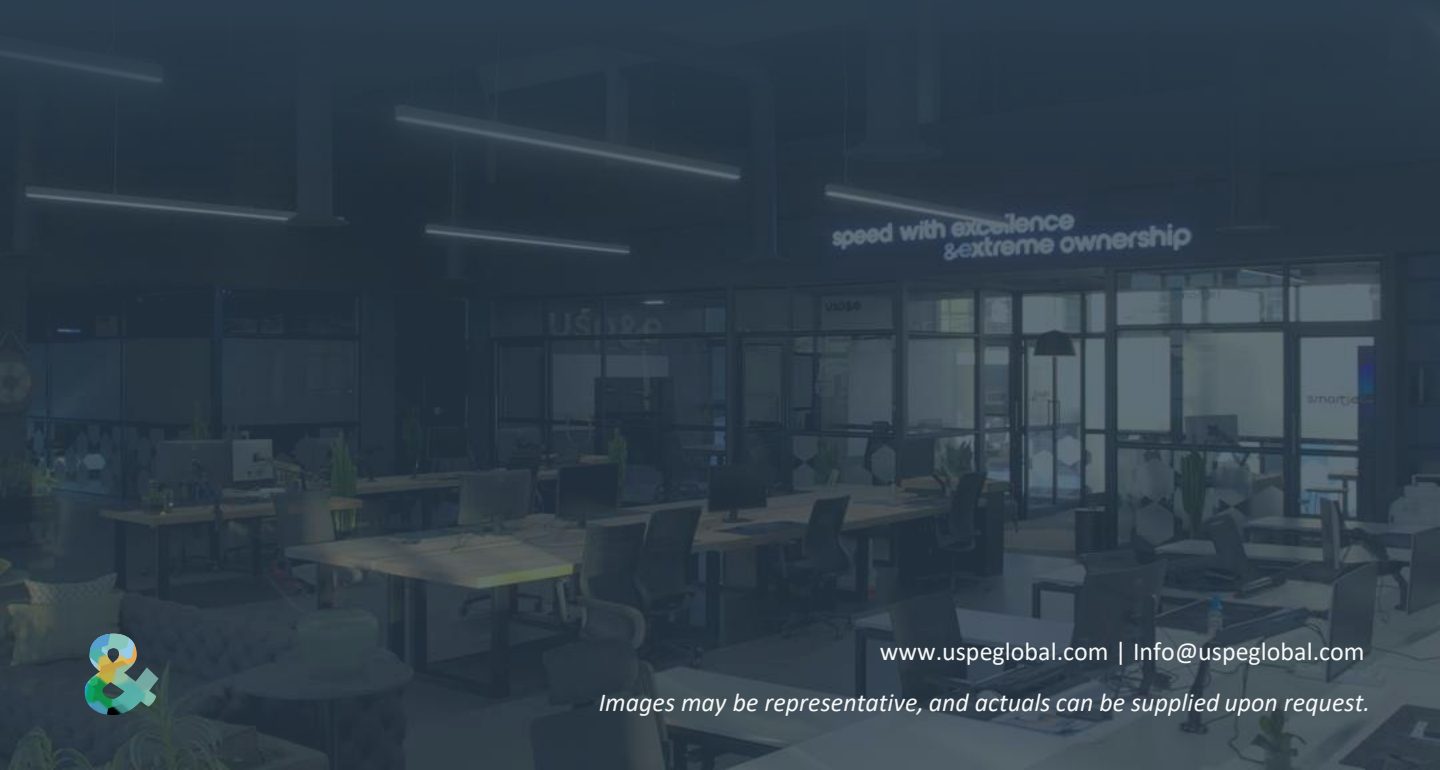

ADVANTAGES

- **Flexible Application:** Suitable for industrial plants, distributed generation, or backup power
- **Fuel Efficiency:** Optimized natural gas combustion for industrial energy applications

Manufacturer	Centrax
Model	501 KB7
Year	1999
Condition	Used
Location	Europe
Qty Available	1 Unit
Category	Natural Gas Turbines
Subcategory	1 – 9 W
Stock Number	USP010930
Wattage	5 MW
Hours	43000 hours
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	-
Balance of Plant Available? (BOP)	Available
