1 MW 2007 Used Caterpillar XQ100 Diesel Generator Set

1 MW 2007 Used Caterpillar XQ100 Diesel Generator Set

Description

This generator set, manufactured in 2007, delivers approximately 1 MW of electrical output. It is designed for reliable standby or continuous-duty power generation across industrial, commercial, and utility applications. The unit incorporates a robust high-speed diesel engine mated to a dependable alternator and housed within a durable skid-mounted or containerised package. With its established design, the set is well suited for a broad range of power-supply requirements, including emergency backup, base-load smoothing, or site-power generation.

KEY FEATURES:

- Rated electrical output: 1 MW (1,000 kW)
- Diesel-fueled high-speed four-stroke engine
- Heavy-duty skid or container mounted for ease of installation

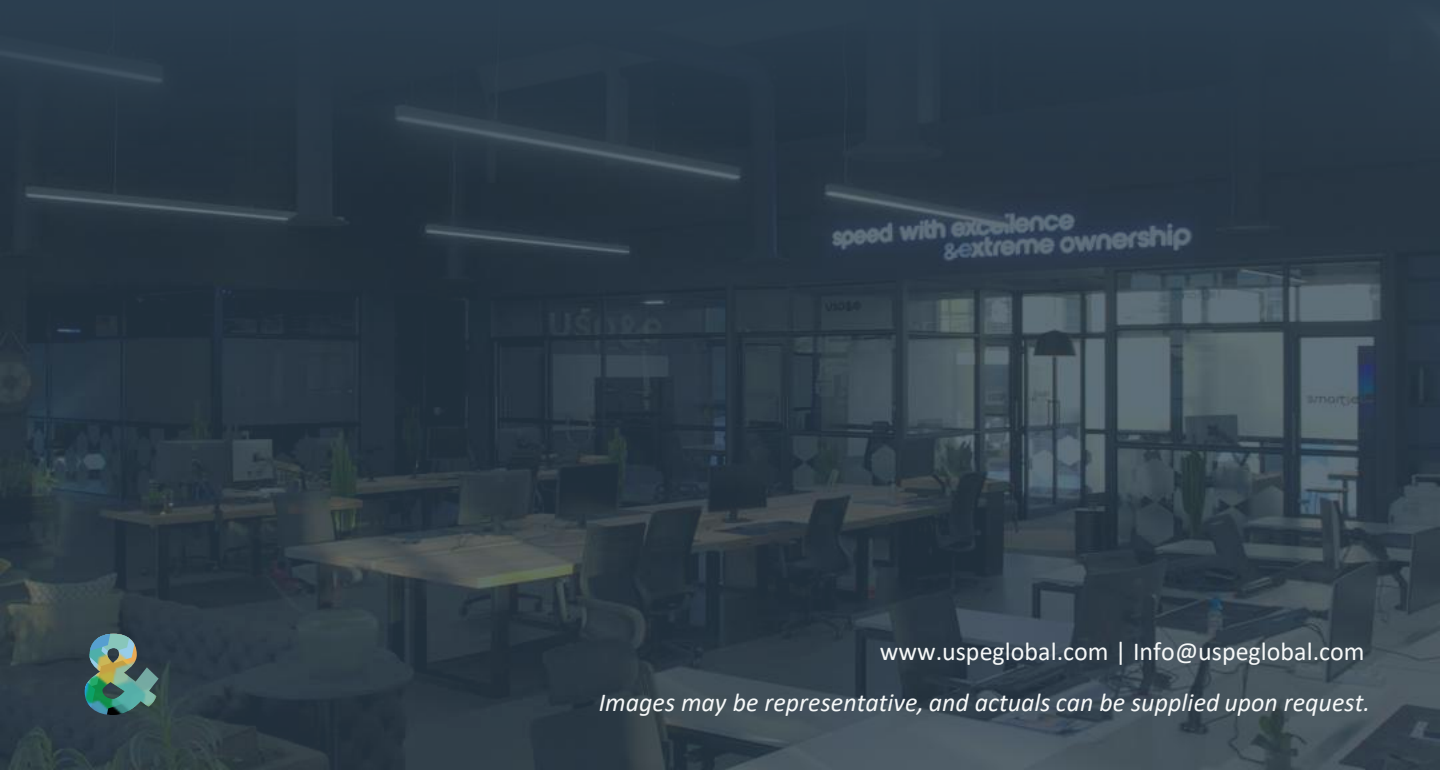

ADVANTAGES

- **Space-efficient footprint:** Skid or container mounting simplifies installation, site interfacing and relocation if required.
- **Flexibility of use:** Suitable for continuous base load, standby/emergency duty or hybrid generation setups, giving operational versatility.

Manufacturer	Caterpillar
Model	XQ100
Year	2007
Condition	Used
Location	North America
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010906
Wattage	1 MW
Hours	5000 hours
Frequency	60 Hz
Fuel Type	Diesel
Voltage	208/480 Volts
Balance of Plant Available? (BOP)	-
