### SX 280 Squeezebox Press

Suitable for the farm or factory, the SX280 is designed to withstand the 24-hour days, seven days a week. The SX280 is ideal for plants producing up to 50,000 U.S. gallons (200,000 liters) per week. High squeezing pressure accommodates fibrous fruits and vegetables, including apples, carrots, grapes, and passion fruit in addition to many herbal varieties.

Capacity: 2.5 to 5 tons  
Output: 450-1000 GPH

**SX280 features:**

- Produces low suspended solids
- Very low maintenance - only 2 lubrication points
- Single person operation cuts labor costs
- Provides continuous production in a batch-type machine
- Hydraulic dumping mechanism facilitates easy removal of spent slurry
- Requires no settling tanks, press-aids, or enzyme pre-treatments
- Extremely energy and cost efficient; operates on a simple 220V line
- Only simple in-line filtration - if any - is needed
- 28" square rugged polymer racks
