

Pick & Carry Cranes

A New Generation Of Pick

GF50 Pick & Carry Crane [5.0t x 0.7m]

The GF50 is the latest evolution in GGR Group's renowned range of pick and carry cranes, featuring a maximum lifting capacity of 5.0 tonnes (main hook).

Designed for safe, compact, and efficient lifting in confined or restricted access areas, the GF50 is ideal for indoor and outdoor use where larger cranes cannot operate. With a maximum lifting height of 7.6m that can be extended to 8.4m with the searcher hook, the GF50 is ideal for working in factories, warehouses and similar spaces.

With no outriggers required, this radio-remote controlled crane offers exceptional mobility and fast working times, increasing productivity on site. Its precise controls and excellent visibility make it a reliable solution for lifting and moving heavy loads in tight environments. The GF50 has an optional 4.2t capacity full winch system to further extend the capabilities.

Perfectly suited to a wide range of industries - including manufacturing, construction, rail, aerospace, and plant maintenance. Whether navigating a factory floor or assisting with complex installations in limited spaces, the GF50 is one of our many perfect choices for efficient, eco-friendly and versatile lifting.

Reference Code

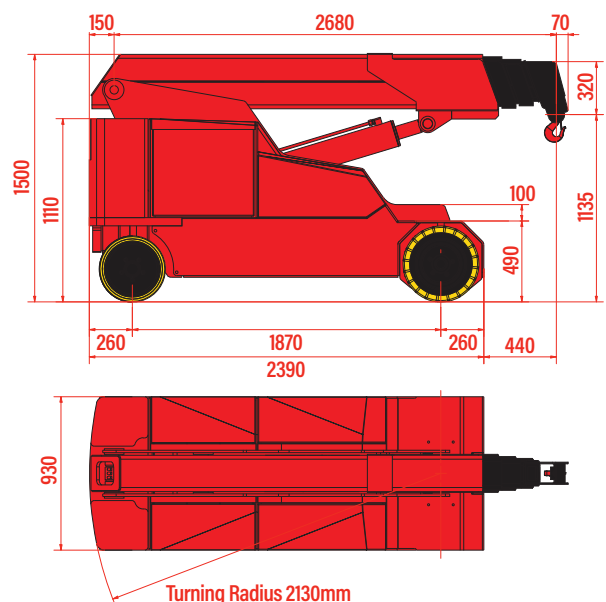

MCGF50

Technical Specification

Capacity	5.0t x 0.7m
Maximum working radius	5.2m (6m with searcher hook)
Maximum lifting height	7.6m (8.4m with searcher hook)
Dimensions	2680mm (l) x 930mm (w) x 1500mm (h)
Weight	4500kg (w/ counterweights), 3000kg (without)
Boom length	2.68 - 7.18m (7.98m with searcher hook)
Boom type	3 section hydraulic box boom
Derricking angle	-10° to 65°
Steering	rear 180°
Tyres	2 solid rear, 2 solid front
Power source	24v rechargeable battery
Battery charger	110v
Travel speed	3km/h
Gradability	±20° (without load)
Standard equipment	Radio remote control, digital safe load indicator with display, radio-controlled proportional distributor, reversing alarm, emergency stop button, work light
Optional equipment	Searcher hook, jib, buckets, 4.2t full-winch system, low marking tyres, auto-levelling hydraulic system with front tool holder plate, forks, fork sideshifters

Technical Data (approx. mm)

Optional
searcher hook

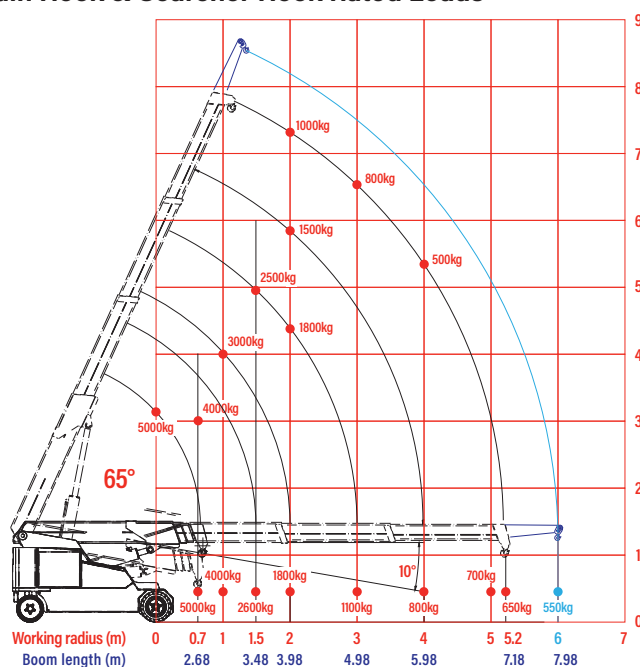

Optional 4.2t max capacity winch

Standard radio remote

Main Hook & Searcher Hook Rated Loads

Main Hook is 5.0t max capacity, Hydraulic Winch is 4.2t max capacity (8 falls)

Optional forks
