

To Whom it may concern

SIA LSEZ DUNA has started cooperation with SIA "Aquila Harbor Cranes" at the early beginning of 2021. Since then we have acquired one brand new mechanical clamshell grab which allow us to rise loading/unloading rate for 12%, keeping the operational expenses in previous level.

Secondly, we have acquired a used clamshell grab, what have been delivered in agreed terms and prepared for our needs by supplier after an inspection in our terminal.

The main characteristic in cooperation were deep interest in understanding our needs and to offer solutions what brings a benefit to us.
