## **Speed Dryers** Model SD24D & SD36D

Available in either 24" or 36" sizes, the Labtech Speed Dryers permit rapid drying of hand-sheets after pressing, prior to evaluation. The uniformly distributed heat from the drying surface reduces the moisture content of paper samples. The drying surface is highly polished to facilitate hand-sheet removal.

### **Features**

- Mirror polished drying surface
- Long-life nomex drying pad
- Digital Temperature Controller with operator lock out feature
- Separate control box located beneath the frame for longer component life
- Full width elements for uniform heat dispersion
- Insulated body for reduced perimeter heat loss
- Wide black monocast handle which remains cool
- Available in drying surface of 24" x 14" or 36" x 14"

We also rebuild existing speed dryers to like new condition at substantial savings. A new product warranty is offered on all rebuilt speed dryer.
