ABOUT USP&E MINING

PROVIDING YOU WITH RELIABLE POWER

usp&e

USP&E buys, develops, constructs, and operates active mining concessions. We also offer a full suite of contract mining services to key mining clients. Having successfully delivered mining and mineral export projects across Africa - together with our key partners, USP&E has the experience, local know-how, resources and technical capability to offer results.

USP&E has the ability to advise on mine planning, and has recently been employed by LLuka Resources, an Australian based resources company, on an Early Contractor Involvement scheme to plan and cost the next phase of mining at the Sierra Rutile mine in SL, where we are currently carrying out contract mining and mine infrastructure works. Due to our high level of efficiency and effectiveness we have never lost a competitive situation on price.

We, at USP&E aim to meet all your needs by ensuring that your projects run at a profit as early as possible. Contact us to let us know your project needs and how we can help you.

MINING PROJECTS, SERVICES & EQUIPMENT

PROVIDING YOU WITH RELIABLE POWER

usp&e

We are a mining contractor with strong roots in west Africa. The team at USP&E, through our alliance with DIG IG, a South African based international civil engineering firm, has over 10 years experience working in Africa on civil infrastructure and mining projects, maintaining operations through the Ebola and the current Covid crisis. DIG is an agile business with low overheads and is able to respond quickly and competitively to bids, studies or work on the ground. The company's senior management is accessible, responsive and aim to work collaboratively with clients to help solve their challenges.

MINING DEVELOPMENT PRODUCTION TRADING

A history of responsible investment and effective utilisation of mining resources and equipment. USP&E has a history of involvement in African and company owned mining platforms with strong investments in multiple sectors. We have a technically strong, professional and highly resourceful team and a well-maintained plant fleet able to mobilise quickly and fast-track construction of access corridors, mine infrastructure and facilitate early cash generation from mining.

FULL SERVICE SOLUTIONS

We have the in-house capability to take on the full range of tasks required to develop, design, construct, commission, and operate mining facilities in any country across Africa.

We also offer:

- Mining Equipment (new and used)
- O&M Services across Africa
- Mine Development and Geological Resources
- Mineral Trading Desk

MINING EQUIPMENT

We manufacture and stock new and used mining equipment, process plants, mobile test labs, and earth-moving equipment

CONSTRUCTION

Building + Medium & Large Scale Mining Projects Commitment to Safety Fast Track Production Options

METHODS

Underground Open Pit Surface Mining
In-Situ Strip Mining Quarrying

OPERATION & MAINTENANCE

We operate and maintain mining facilities across Africa

WE CAN FAST TRACK ANY MINING PROJECT

We develop, and bring to operational readiness, mining projects faster than anyone in Africa. We reduce typical project times by more than half by executing our fast track approach. Our simultaneous preparation of site, procuring the equipment and finding the fastest shipping time means that the plant is commissioned in the fastest time possible.

USP&E MINING SERVICES

PROVIDING YOU WITH RELIABLE POWER

usp&e

Our vision is to be the most trusted supplier of energy services in global and emerging markets for major projects in mining, oil/gas, hospitality, manufacturing, telecommunications, and others.

Since 2002 USP&E has assisted clients with over 150 feasibility studies, supplied over 1200 generators, designed, built, installed, and commissioned over 30 major power stations, supplied over 1.8 million spare parts to clients, and consulted on over 40 GW of client energy projects.
