PERFECT THERMOFORMING PROCESSES

SEALPAC® D

AUTOMATIC THERMOFORMING MACHINES

Thermoforming applications for tomorrow's markets

With consumer requirements, the needs in industrial food packaging are also growing. Quality and freshness are prerequisites, as are an attractive appearance, easy opening and, increasingly, more environmentally friendly disposal.

The manufacturer expects, in addition to the highest food safety and the best protection of its product, maximum efficiency in the manufacturing process. Trade requires the maximum possible expiry date and an attractive aspect that stimulates the purchase and the best logistics properties.

State-of-the-art thermoforming technology

Whether you are a medium-sized manufacturer with a wide range of products or an industrial company with high productions: at SEALPAC you can find efficient machines for every need with a wide spectrum of application, designed for the packaging of any type of product.

The latest generation of our high-tech equipment stands out for its highest degree of innovation and thus opens up new dimensions of precision and efficiency. This is how we continuously demonstrate our potential for innovation, with future-oriented thermoforming technology, state-of-the-art materials and our unique know-how.

With SEALPAC thermoformers, you benefit from reliable and long-lasting equipment with economical energy consumption and low maintenance requirements. The equipment can be expanded later.

FLEXIBLE IN APPLICATION – ALL IN ONE EQUIPMENT

With a SEALPAC thermoformer, maximum flexibility is achieved. And so you can take care of your future needs.

FILMS RIGIDOS MAP

For precise packaging with the most complex shapes

THERMOSKIN

Product securely fixed for attractive product presentation – also vertically

TENDERPAC

Innovative ripening in the two-compartment system for fresh meat in supermarkets

FLEX-FLEX

Standard application with flexible films at an affordable price

SHRINKSTYLE®

Innovative shrink technology that protects the maturation process of cheese or fresh meat

Precise thermoforming shapes
Ensure an attractive presentation of the product

EasyPeelPoint

Innovative system that allows easy opening, even of Cold Welded Cutting Lines

Shape cut

Precise Cut of the Film which ensures flawless and attractive packaging optics

- Continuous contours

HYGIENIC DESIGN

Improved food safety with maximum hygiene: the good accessibility of all equipment components allows for easy and residue-free cleaning.

A hygienic solution:

- Folding and/or removable side lining
- Rounded edges

TOUCH SCREEN

Easy-to-handle display and storage for 40 programs

STATION FORMED

Precise film forming with the innovative Rapid Air Forming system

SEALING LAST

Reduced changeover times to a minimum thanks to easy change of the sealing plates

SYSTEM OF ELEVATION

Consistent forming and sealing quality thanks to solid construction

CUTTING SYSTEM

The suction device prevents the accumulation of residues after longitudinal cutting

Standardized components
Quickly available worldwide. This significantly reduces downtime

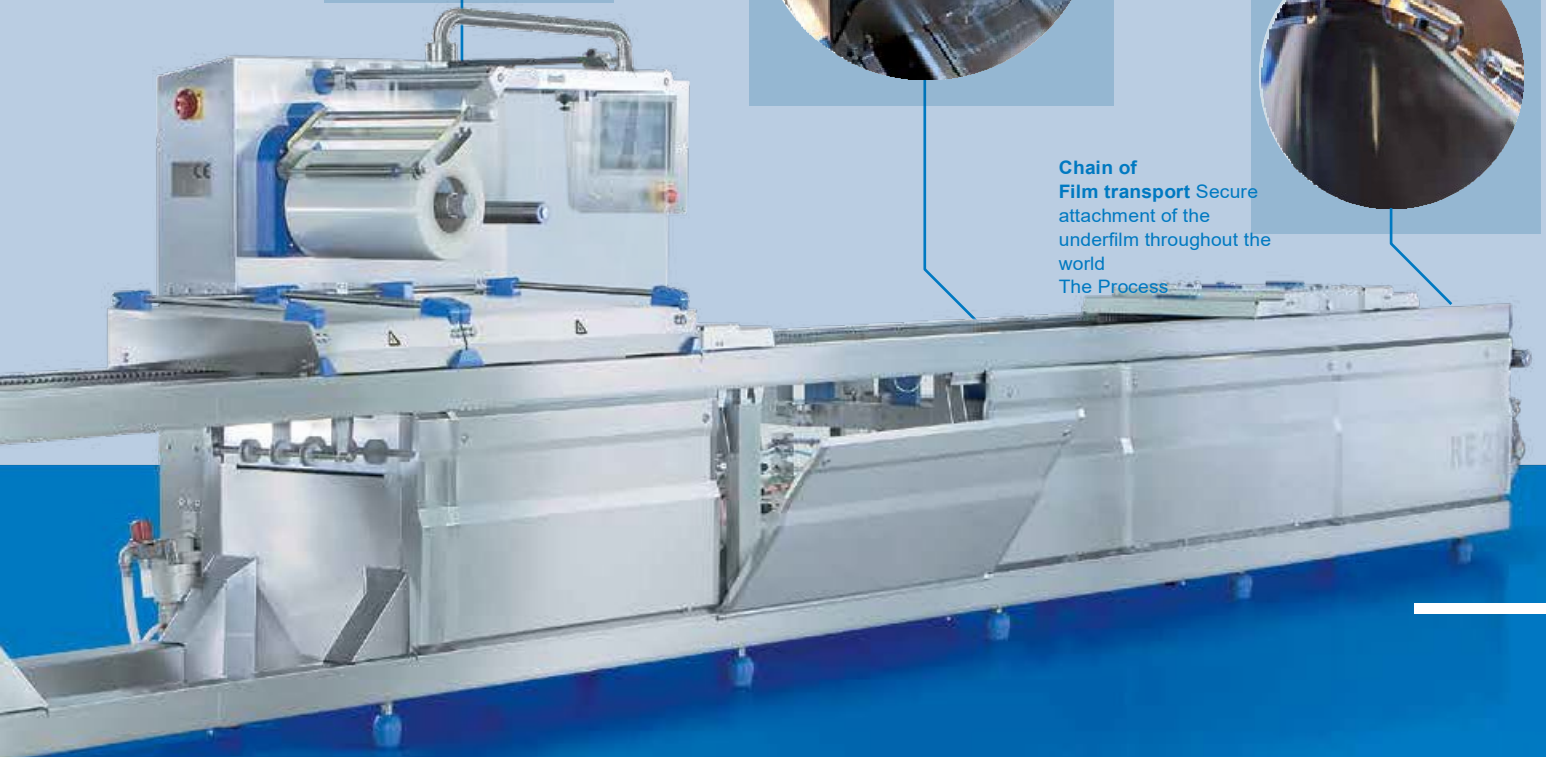

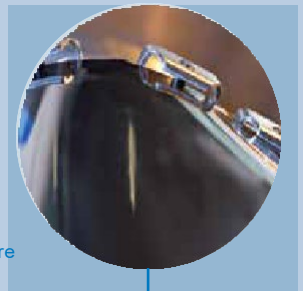

Hygienic design

Easy cleaning thanks to stainless steel construction that can be cleaned with pressurized water

Chain of Film transport Secure attachment of the underfilm throughout the world The Process

SOLID SYSTEM OF HE VACI Ó N

The intelligent design mode maintains the forces generated and thus enables the optimal execution of the packaging

processes.

EASY MAINTENANCE

All devices in the RE series are characterised by low maintenance requirements and ensure maximum availability and reduced downtimes.

Convincing advantages:

- Modular system
- Low wear

Series success – RE solutions at a glance

The latest generation of the RE series offers an optimal solution for everyone modern food packaging requirements, regardless of type or size.

SEALPAC RE15

The model
Startup Professional

SEALPAC RE20

The team
Compact and flexible

SEALPAC RE25

The model
professional modular

SEALPAC RE30

The Solution
for high yields

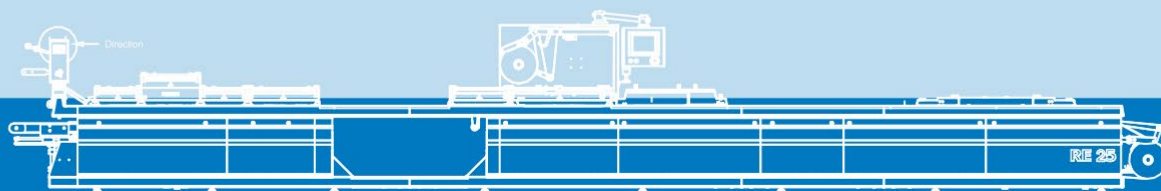

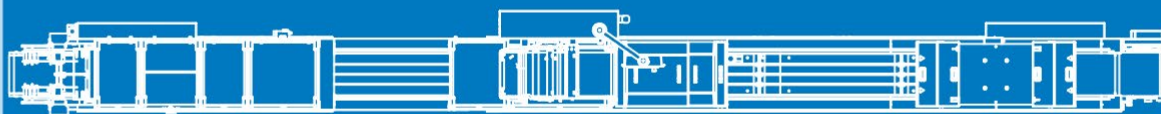

Technical data:

	RE15	RE20	RE25	RE30
Capacity ¹⁾	up to 8 cycles/minute	Up to 12 cycles/minute	up to 15 cycles/minute	up to 15 cycles/minute
Distance between lasts	1,450 - 2,090 mm	1,450 - 2,090 mm, 2,450 - 3,090 mm, 3,450 - 4,090 mm	depending on the machine version	depending on the machine version
Frame Length ²⁾	4,000 mm	4,000, 5,000, 6,000 mm	4,500 - 12,000 mm	4,500 - 15,000 mm
Machine Width	930 mm	1,070 mm	1,105 - 1,295 mm	1,105 - 1,295 mm
Machine height	approx. 1,950 mm	approx. 1,950 mm	approx. 1,950 mm	approx. 1,950 mm
Frame height	950 - 1,070 mm	950 - 1,070 mm	950 - 1,070 mm	950 - 1,070 mm
Machine Weight	AC. 2,100 kg	2,200 - 3,000 kg	2,200 - 4,500 kg	3,000 - 6,000 kg
Unwinding the film	Outer coil 400 mm	Outer coil 400 mm	Outer coil 400 - 1,000 mm	Outer coil 400 - 1,000 mm
Ancho from the movie	320 mm	320, 360, 420, 460 mm	285 - 650 mm	285 - 650 mm
Breakthrough ³⁾	150 - 400 mm	150 - 600 mm	150 - 1,000 mm	150 - 1,000 mm
Maximum thermoforming depth	120 mm	120 mm	190 mm	190 mm
Compressed Air	min. 6 bar (90 PSI)	min. 6 bar (90 PSI)	min. 6 bar (90 PSI)	min. 6 bar (90 PSI)
Connection Values	400 V/ 3 x 230 V, 50 / 60 Hz	400 V/ 3 x 230 V, 50 / 60 Hz	400 V/ 3 x 230 V, 50 / 60 Hz	400 V/ 3 x 230 V, 50 / 60 Hz
Cooling water	60 l/hr	80 l/hr	depending on the machine version	depending on the machine version
Protection class	IP65	IP65	IP65	IP65

¹⁾ Capacity depending on the application, films, container depth, etc.

²⁾ Frame lengths above 15,000mm available.

³⁾ Feeds above 1,000 mm available.

MORE possibilities :

With a thermoforming equipment from SEALPAC, you opt for an innovative technology that today sets trends and it will remain in force tomorrow. It allows you to always meet the high requirements of consumers and manufacturers, produce efficiently and open up new markets.

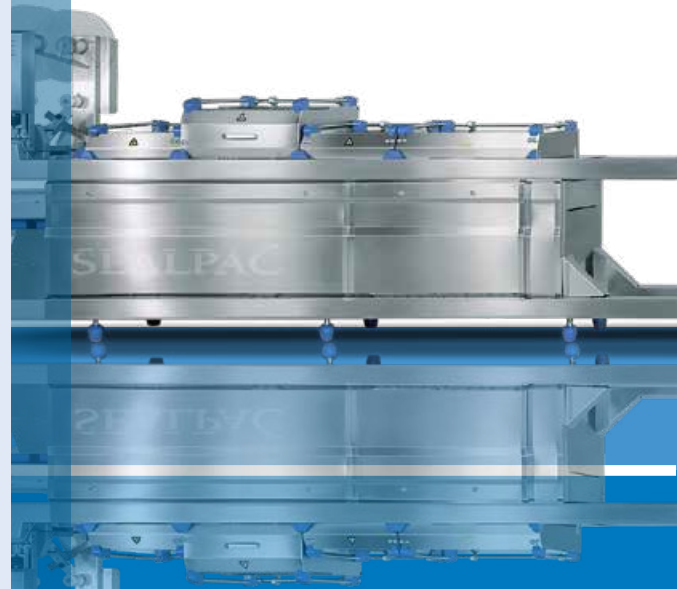

In short:

**With SEALPAC you are always
one step ahead!**

**And always well taken care of.
Your SEALPAC representative:**

SEALPAC – Maximum flexibility

As a high-precision company, we are committed to with the goals and success of our clients. Together we develop solutions with the highest quality. We flexibly and with total dedication offer you individual solutions that will reshape your future.
