SPREADER LIGHT

SCM-SL Series

• 1500 Lumens

shadow-caster® LED LIGHTING

DESCRIPTION

The Shadow-Caster® Spreader Light is perfect for illuminating decks and other large areas of your boat or yacht. The flush mount version is great for mounting in T-Tops or use the bracket mount version to retrofit existing installations. The Shadow-Caster® Spreader Light has a unique reflector design which spreads the light beams out to reduce glare. The Spreader Light comes in black or white finish. It is available in 3 color output options: single color white, 2 color (white and blue) as well as a full color version. The brightness and color can be controlled with a standard switch.

FEATURES

- Soft start technology ramps the brightness up gently over 2 seconds.
- Power toggle feature to set brightness and change color
- True white LED for best color performance
- High efficiency switch mode power supply
- Waterproof low-profile aluminum housing
- White or black finish
- Unique reflector design to reduce glare
