MOVING YOU FORWARD

It starts with the perfect wake, crafted for you.

With a forward-facing design, the Mercury MerCruiser® Bravo Four S™ drive takes you through water with unrivaled handling and efficiency while creating the ideal wake for tow sports. Whether you're at the wheel or the end of a tow rope, the versatility of the Bravo Four S drive combined with innovative SmartTow® features and fun-focused design moves you forward like no other drive before.

SMART TOW® DELIVERS

The Bravo Four S drive comes equipped with the power to do more with Mercury SmartCraft® digital technologies, including an upgraded Smart Tow system. Intuitive Smart Tow controls tether surf tab and propulsion together with CZone® ballast control so all you have to do is pick the tow sports activity and determine the perfect speed and wake. The Smart Tow system makes all the necessary adjustments to deliver what you want. On-the-fly changes are just as simple so you can focus on the water in front of you and the surfer behind you. Let the Smart Tow system handle the rest.

SURF LIKE A PRO

The Bravo Four S drive, in conjunction with the Smart Tow system, provides the ultimate platform for wakesurfing, with speed and surf tab controls designed to handle the ballast and slow speeds necessary for creating a surfable wake. Together with the maneuverability of a steerable drive and extra grip of forward-facing props, the Bravo Four S drive and Smart Tow controls ensure an exhilarating surfing experience.

GET UP AND GO

Before the rider can surf the wake, they have to get on it. With five pre-set launch intensities, you can vary between aggressive acceleration for veteran riders and a more subdued start for beginners. Once the intensity is selected, the driver won't have to worry about leaning too hard on the throttle. The Smart Tow system delivers the perfect experience every time.

CRITICAL CONTROLS

Surf controls are at your fingertips on a compatible VesselView® display. A convenient control bar makes quick work of adjustments and selecting settings, without limiting access to all the normal features of your multi-function display. Together with intuitive Smart Tow controls, it's a complete tow sports system, with service and support provided entirely by your authorized Mercury Dealer.

CRAFTED PERFORMANCE

Calling on its history of engineering the best-performing, most efficient props in the industry, Mercury went to the drawing board to craft five new prop sets specifically for the Bravo Four S drive. They're designed to run in a dual contra-rotating configuration with a four-blade prop in front of a three-blade prop, which minimizes cavitation to reduce noise and increase efficiency. Like every Mercury prop, these new models are durable for long-lasting performance.

**MORE CONTROL
WITH MERCRUISER**

The Bravo Four S drive is compatible with legendary MerCruiser sterndrive engines ranging from 250hp to 430hp. You'll appreciate the trimmable, steerable drive and reliable, quiet MerCruiser engine performance, whether you're carving out a wake at 8 mph or cruising into a tranquil cove at sunset. The Bravo Four S drive lets you do more.

**COMPATIBLE MERCRUISER
STERNDRIVE ENGINES**

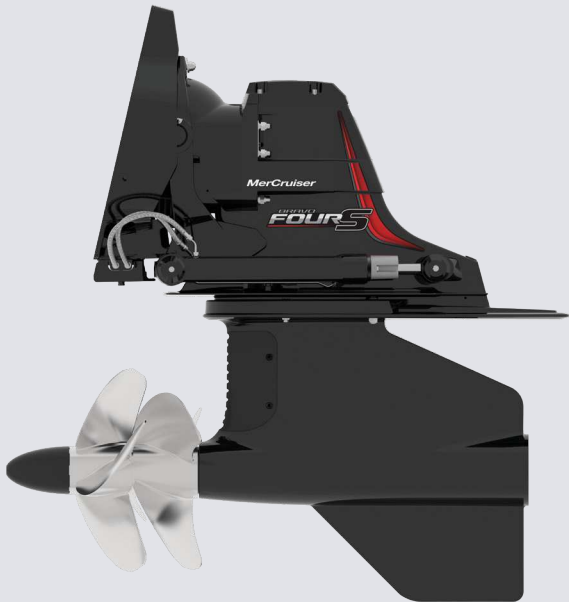

8.2L V8 / 6.2L V8 / 4.5L V6

GEAR RATIOS
2.20, 2.00, 1.81

PROPELLER PITCHES
19.5, 21, 22.5, 24, 25.5

DIGITAL THROTTLE & SHIFT
The SmartCraft Digital Throttle & Shift (DTS) system ensures smooth, precise shifting and lightning-fast throttle response with zero hesitation.

WARRANTY PROTECTION

When you surf with a Bravo Four S drive, you get peace of mind backed by decades of engineering that have delivered better corrosion protection, more durable alloys and superior paint – the same features that made every member of the Bravo sterndrive lineup legendary for toughness.
