

## H 800 Hydraulic pump

Hydraulic pump for repairs and fitting works in places of difficult access, away from power sources:

- works with all ERKO hydraulic heads and devices (equipped with PT quick coupler)
- efficient work – 2 circuits:
  - fast access (low pressure)
  - work (high pressure)
- equipped with hydraulic hose (length 2m) and PM quick coupler as standard
- can be equipped with manometer (H 800M), automatic retraction (H 800A), automatic retraction and manometer (H 800AM)

Length: 450 mm; Weight: 8,4 kg; Pressure: 630 bar
