## & MACHINERY

**£2250.00**

- OEM - HME
- Tonnage - 40
- Guarded
- Stroke Adjustment - 4 in
- Table Size - 720 x 500
- S.N. - 13335
- Recently replaced foot pedal.
- Uddal Guard - 93-40K - ID No - u15593
- Machine Dimensions - 2400mm High x 1100mm Wide x 1500mm Deep

The HME 40 Ton Adjustable Stroke Power Press is a heavy-duty mechanical press designed for industrial use. It is capable of exerting up to 40 tons of force, making it suitable for a variety of metal forming and stamping operations.

One of the key features of the HME press is its adjustable stroke length. This allows the operator to customize the press's stroke to suit the specific requirements of the job at hand. The stroke can be adjusted using a simple handwheel, making it easy to set up and operate.

The HME press also features a large worktable with T-slots for securely clamping the workpiece. The table can be adjusted both vertically and horizontally to accommodate different sizes and shapes of workpieces.

Other features of the HME 40 Ton Adjustable Stroke Power Press include a safety guard to protect the operator from flying debris, a foot pedal for convenient and safe operation, and a powerful motor to drive the press.

Overall, the HME 40 Ton Adjustable Stroke Power Press is a versatile and powerful machine that is ideal for metalworking applications such as punching, bending, and forming. Its adjustable stroke length and large worktable make it well-suited for a variety of jobs, and its safety features ensure that it can be used with confidence in an industrial setting.
