With this waste disposal station, HSM combines the large document shredder FA 500.3 with a channel baling press. It is therefore particularly perfect for use in archives or central stations for document shredding, even in large quantities, which are then compressed into bales of up to 90 kg as needed.

- High quality materials and "Made in Germany" quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Convenient material feeding via non-slip conveyor belt.
- Continuous operation is possible thanks to the powerful motor with a chain drive.
- Automatic return eliminates paper jams.
- Simple commissioning of the combination using Plug-and-Play.
