	The Drive warranty extends to one year from the actual machine start up. This drive will be mounted on the machine and run prior to shipment from our plant to make sure both operate satisfactorily. We strongly recommend that you engage the services of the John Dusenbery Company at your expense prior to start up. In this way, any malfunction that may occur can be rectified by us. Should your plant electrician mis-wire the drive so that the SCR's are blown, repairs will be at your expense. Literature to: Mr. Dean Spears MACH113
