

PP 6 (Pallmann)

Description	impeller breaker mill
Type	PP 6
Category	Mills
Manufacturer	Pallmann
Ref-No.	Z03303

Technical data

Material	Normalstahl / steel
Year of manufacture	1970
Engine	37 kW
Weight	900 kg
Length x Width x Height	1300 mm x 1000 mm x 900 mm
Machine data	<p>Applicable for production of finest plastic-powder:</p> <ul style="list-style-type: none"> - finest powder without use of nitrogen - best powder characteristic: best flow behaviour, high apparent density and narrow particle distribution - low grinding temperature, in terms of optimal ducting of the air - fully automatic continuous operation - simple regulation of particle size. <p>Throughput rate : 50 - 200 kg / h.</p>
