

FIGURE 6-7. BLANKETROL III - REFRIGERATION FLOW DIAGRAM

Measurements at 10 degrees C

- | | | | |
|----------------------|-----------------|----------------------|------------|
| Subcool (SC) | _____ degrees C | Compressor I | _____ Amps |
| Superheat (SH) | _____ degrees C | Heater I | _____ Amps |
| Drier input | _____ degrees C | Standby I | _____ Amps |
| Drier Output | _____ degrees C | Suction Pressure off | _____ psi |
| By-pass valve input | _____ degrees C | Suction Pressure on | _____ psi |
| By-pass valve output | _____ degrees C | | |

22 to 4 degrees C less then 10 minutes

4 to 42 degrees C less then 15 minutes
