

# **21-SPINDLE SINGLE LINE BORING MACHINE**

## **SJK-21A**

- Single line boring machine with 21 spindles at 32mm centers
- Tilttable boring head can be changed from vertical to horizontal boring by pneumatic setting
- Pneumatic boring cycle by convenient foot pedal
- 2 Pneumatic cylinder clamp for solid hold-down to the material.
- Adjustable boring feed speed
- Mechanical digital readouts are provided for precise setting of the boring head
- Adjustable boring depth for fast changeover
- Two side fences for end boring or boring smaller components
- One 3m long back fence for long line boring with flip stops
- quick change chuck for fast changeover (12pcs included)

Distance between each bit.....	32mm
No. of spindles of boring head.....	21pcs
Max Drilling Dia.....	35mm
Max Drill Depth.....	80mm
Table Size.....	920x500mm
Working Table Height .....	900mm
Length of back Fence .....	3m
Motor Power .....	2HP
Motor Speed .....	2840 rpm
Machine Size .....	1000x1020x1340mm
Net Weight .....	320 kgs
