
TOOL LENGTH MEASURING DEVICE (WITH O.T SWITCH)
FOR MACHINING CENTER
INSTRUCTION MANUAL
SEICOS MF(15M), MY/MULTI(180M), MIII

VERS.6.2

1-1992

SEIKI Hitachi Seiki Co., Ltd.

C O N T E N T S

	Page
1. Outline	1
2. Specifications	2
3. Function	4
3-1 Standard function	4
3-2 Additional function in the combined use with spare tool selection macro	5
3-3 Additional function in case of combined use with cutting monitor	6
4. Common variables list	7
5. Programming	9
5-1 Basic form of machining program	9
5-2 G100(G110) tool length measurement macro	10
5-3 G103(G113) tool breakage detection macro	15
5-4 G105(G115) workpiece-number count macro	16
6. Maintenance, adjustment	17
6-1 Additional M-code	17
6-2 Check for OT signal	17
6-3 Check for touch signal	17
6-4 Adjustment on software	18
6-5 Mechanical maintenance	21
7. Programming in case of combination with spare tool selection macro	22
7-1 Basic form of machining program	23
7-2 G100(G110) tool-allocate & tool-length measurement macro	26
7-3 G102(G112) spare tool call macro	26
7-4 G103(G113) tool-life judgement & tool breakage detection macro	26
7-5 G105(G115) workpiece-number count macro	27
8. Alarm list	28
