## OPERATION & MAINTENANCE

(1st Edition)

Pub No. 5059-E (LE11-145-R1) July 2003

# TABLE OF CONTENTS

|  |    |
|--|----|
| SECTION 1 OUTLINE.....   | 1  |
| 1. Machine Specifications .....                                    | 1  |
| 1-1. Specification Table .....                                     | 1  |
| 1-2. Dimensional Drawing.....                                      | 3  |
| SECTION 2 TRANSPORTATION AND INSTALLATION (RELOCATION) .....       | 5  |
| 1. Site Selection Guidelines.....                                  | 5  |
| 1-1. Care in Machine Transportation .....                          | 5  |
| 2. Foundation Requirements .....                                   | 7  |
| 2-1. Precautions for Foundation Work.....                          | 7  |
| 3. General Procedure for Installation.....                         | 8  |
| 3-1. Installation Procedure .....                                  | 8  |
| 3-2. Precautions for Installation .....                            | 8  |
| 4. Leveling the Machine.....                                       | 9  |
| 4-1. Leveling Procedure.....                                       | 9  |
| 5. Foundation Plan.....  | 10 |
| 6. Power Requirements and Fuse Capacity .....                      | 11 |
| 6-1. Inspection of Cable Connection.....                           | 11 |
| 7. Oils to Be Prepared before Installation .....                   | 13 |
| SECTION 3 OPERATION (OF CNC LATHE) .....                           | 14 |
| 1. Before Starting Operations .....                                | 14 |
| 1-1. NC Operation.....   | 14 |
| 1-2. Setting Zero Offsets.....                                     | 15 |
| 2. Machine Operation .....   | 27 |
| 2-1. Hydraulic Power Unit.....                                     | 27 |
| 2-2. Spindle Power-Torque Diagrams .....                           | 31 |
| 2-3. Power-Torque Diagram of Rotary Tool Spindle .....             | 33 |
| 2-4. C-axis Brake.....   | 34 |
| 2-5. Hydraulic Power Chuck.....                                    | 35 |
| 2-6. Cutting Soft Top Jaws of Power Chuck.....                     | 46 |
| 2-7. Precautions for Turret.....                                   | 47 |
| 2-8. Interlock.....  | 48 |
| 2-9. After Completion of a Day's Operation .....                   | 50 |
| 2-10. Manually Operated Chuck .....                                | 50 |
| SECTION 4 INSPECTION/MAINTENANCE (FOR TROUBLE-FREE OPERATION) .... | 56 |
| 1. Lubrication .....   | 57 |

|  |           |
|--|-----------|
| 1-1. Lubricating Oil Specification .....   | 59        |
| 1-2. Spindle Lubrication System .....  | 60        |
| 1-3. Lubrication System for Bed/Saddle/Cross-slide Slideways .....                             | 60        |
| 2. Adjusting Centralized Lubrication Unit .....  | 61        |
| 2-1. Adjusting Pump Delivery .....   | 61        |
| 2-2. Maintenance and Countermeasure .....  | 61        |
| 2-3. Other Remarks .....   | 61        |
| 3. Lubrication and Cleaning of Spindle Cooling Unit .....                                      | 62        |
| 3-1. Right/left Spindle Cooling Unit .....   | 62        |
| 4. Removing Sludge from Coolant Unit .....   | 64        |
| 4-1. Procedure for Cleaning Separate Coolant Tank .....  | 65        |
| 4-2. Cleaning the Filter .....   | 65        |
| 4-3. Cleaning the Fine Chips Collection Bucket .....   | 65        |
| 5. Collecting Used Lubricating Oil .....   | 66        |
| 6. Tensioning Belts .....  | 67        |
| 6-1. Timing Belt for the YS-axis Servomotor .....  | 67        |
| 7. Other Maintenance Items .....   | 68        |
| 7-1. Cautions on Checking the X-axis Ball Screw and Related Parts .....                        | 68        |
| 8. Troubleshooting .....   | 69        |
| 8-1. Trouble with Headstock .....  | 69        |
| 8-2. Trouble with Turret .....   | 70        |
| 8-3. Others .....  | 76        |
| <b>SECTION 5 SPARE PARTS LIST .....</b>  | <b>77</b> |
| 1. Hydraulic Equipment .....   | 77        |
| 2. Electric Equipment (Mounted to the Machine) .....   | 78        |
| 3. Consumable Parts (Life Cycle: 8000 hrs or 3 years) .....                                    | 79        |
| <b>SECTION 6 TECHNICAL DATA .....</b>  | <b>80</b> |
| 1. Chucking and Tooling .....  | 80        |
| 2. Toolholder Dimensions .....   | 82        |
| 3. Upper/Lower Turret Tool Interference Diagram (Interference Caused by Turret Rotation) ..... | 88        |
| 4. Working Ranges .....  | 89        |
| 5. Dimensions of Spindle Nose .....  | 99        |
| 6. Hydraulic Power Chuck and Cylinder .....  | 102       |
| 7. Hydraulic Circuit Diagram .....   | 106       |
| 8. Air Circuit Diagram .....   | 108       |
