Instructions Reference Manual

Revised October 2001

TABLE OF CONTENTS

PRECAUTIONS	xi
1 Intended Audience	xii
2 General Precautions	xii
3 Safety Precautions	xii
4 Operating Environment Precautions	xiv
5 Application Precautions	xiv
6 Conformance to EC Directives	xviii

SECTION 1

Introduction	1
1-1 General Instruction Characteristics	2
1-2 Instruction Execution Checks	12

SECTION 2

Summary of Instructions	15
2-1 Instruction Classifications by Function	16
2-2 Instruction Functions	23
2-3 Alphabetical List of Instructions by Mnemonic	96
2-4 List of Instructions by Function Code	111

SECTION 3

Instructions	125
3-1 Notation and Layout of Instruction Descriptions	133
3-2 Instruction Upgrades and New Instructions	136
3-3 Sequence Input Instructions	138
3-4 Sequence Output Instructions	162
3-5 Sequence Control Instructions	181
3-6 Timer and Counter Instructions	200
3-7 Comparison Instructions	237
3-8 Data Movement Instructions	266
3-9 Data Shift Instructions	295
3-10 Increment/Decrement Instructions	343
3-11 Symbol Math Instructions	359
3-12 Conversion Instructions	415
3-13 Logic Instructions	460
3-14 Special Math Instructions	477
3-15 Floating-point Math Instructions	500
3-16 Double-precision Floating-point Instructions (CS1-H/CJ1-H Only)	555
3-17 Table Data Processing Instructions	602
3-18 Data Control Instructions	659
3-19 Subroutines	704
3-20 Interrupt Control Instructions	728

TABLE OF CONTENTS

3-21	Step Instructions	750
3-22	Basic I/O Unit Instructions	768
3-23	Serial Communications Instructions	785
3-24	Network Instructions	809
3-25	File Memory Instructions	832
3-26	Display Instructions: DISPLAY MESSAGE: MSG(046)	847
3-27	Clock Instructions	850
3-28	Debugging Instructions	864
3-29	Failure Diagnosis Instructions	868
3-30	Other Instructions	893
3-31	Block Programming Instructions	912
3-32	Text String Processing Instructions	945
3-33	Task Control Instructions	978

SECTION 4

Instruction Execution Times and Number of Steps..... 987

4-1	Overview	988
4-2	Instructions	989
