WIRE-CUT EDM SYSTEMS

Operation and Maintenance Guidebook

FA Advance Series

 **mitsubishi electric corporation**

CONTENTS

1. Basic Operation	3
1.1 Simple Manual Operation Box	3
1.2 High-function Manual Operation Box	3
1.3 NC Operation Panel Setting Methods and Screen	4
1.4 Mouse and Keyboard Operations Methods.....	5
2. Initial Settings	6
2.1 Power ON	6
2.2 Zero point return.....	6
2.3 Adjusting the Z axis scale.....	7
2.4 Aligning the wire	7
2.5 Taper initialization.....	8
3. Preparing for Machining	9
3.1 Setting the workpiece	9
3.2 Positioning	9
3.3 Setting the upper nozzle height.....	11
3.4 Inputting the NC data	12
4. Program 13	13
4.1 Creating the Program (For Straight Machining)	13
4.2 Editing the Program (For Taper Machining)	14
4.3 Copying and deleting a program	15
5. Machining Conditions	16
5.1 Copying, editing or deleting machining conditions.....	16
5.2 Changing the machining conditions	17
6. Control Functions.....	18
7. Other Functions	19
7.1 Automatic return function	19
7.2 Remachining	19
7.3 Connecting the wire by hand.....	19
7.4 Dry run.....	20
7.5 Alarm screen	20
7.6 AT Maintenance screen.....	20
7.7 eManual screen.....	21
7.8 Know-how screen.....	21
7.9 USB	21
7.10 Saving and restoring the machining information packs	22
8. Examples of Machining Operation.....	23
8.1 Selecting the machining procedure	23
8.2 Machining operation 1 (Basic E-Pack machining/PM machining).....	24
8.3 Machining operation 2 (Taper machining E-Pack machining/PM machining).....	27
8.4 Machining operation 3 (Using an external CAD/CAM).....	30
8.5 Machining operation 4 (Using the EDM's built-in CAD/CAM)	33
8.6 Machining operation 5 (Machining condition search Automatic 2nd cut)	41
8.7 Machining operation 6 (Machining condition search Automatic 2nd cut)	43
8.8 Machining operation 7 (Machining condition search Auto 2nd cut + HybridPack).....	46
8.9 Machining operation 8 (3D-PM machining).....	49
9. Updating the System	55
9.1 Updating the system.....	55
9.2 Downloading the system	56
9.3 Updating the system.....	57
10. Turning the Power OFF	58

11. Maintenance and Inspection Items59

12. List of Consumables79

13. List of Wire Electrodes.....84

14. List of Recommended Parts85

Appendix System Update86
