

MITSUBISHI CNC

M64 SERIES CONNECTION MANUAL

CONTENTS

I. CONNECTION MANUAL

1. OUTLINE	I-1
2. CONFIGURATION	I-2
2.1 System Configuration	I-2
2.2 Types of Units	I-3
3. INSTALLATION	I-5
3.1 General Specification	I-5
3.2 Heat Radiation Countermeasures	I-7
3.3 Noise Countermeasures	I-9
3.3.1 Connection of FG (Frame Ground)	I-9
3.3.2 Shield Clamping of Cables	I-10
3.3.3 Connecting Spark Killers	I-11
3.4 Installation	I-12
4. SYSTEM CONNECTION	I-13
4.1 General System Diagram General for M64	I-13
4.2 Connection of Control Unit	I-14
4.2.1 Control Unit Connector Layout Drawing	I-14
4.2.2 Control Unit Connector Pin Assignment	I-15
4.3 Connection of Power Supply	I-17
4.3.1 Power Supply System Drawing	I-17
4.4 Connection of Emergency Stop	I-20
4.5 Connection with Communication Terminal	I-21
4.6 Connection of I/O Link	I-22
4.6.1 1 : 1 Connection when Using HR531B Cards	I-22
4.6.2 1 : n Connection when Using HR531B Cards	I-23
4.6.3 1 : 1 Connection when Using HR531C Cards	I-24
4.6.4 1 : n Connection when Using HR531C Cards	I-25
4.7 Connection of the MELSEC Bus Connection	I-27
4.8 Serial Link Connection with the MELSEC Unit	I-28
4.8.1 Unit Connection	I-28
4.8.2 Cable Connection	I-29
5. CONNECTION OF BASE I/O UNIT	I-32
5.1 Base I/O Unit Connection System Drawing	I-32
5.2 Types of I/O Units	I-34
5.3 Control Unit Connection	I-35
5.4 Connection of Power Supply	I-36
5.5 Connection of DI/DO Signal	I-37
5.6 Example of RIO Connection	I-39
5.7 Connection of Servo Amplifier	I-40
5.8 Connection of Encoder	I-41

5.9 Connection of Sensor Signal (skip)	I-42
5.10 Handle Connection	I-43
5.11 Connector Pin Assignment	I-45
6. CONNECTION OF REMOTE I/O UNIT	I-49
6.1 Outline of Remote I/O Unit	I-49
6.2 Names of Each Remote I/O Unit Section	I-50
6.3 Connection of Remote I/O Power	I-51
6.4 Outline of Digital Signal Input Circuit	I-52
6.5 Outline of Digital Signal Output Circuit	I-54
6.6 Outline of Analog Signal Output Circuit	I-55
6.7 Outline of Analog Signal Input Circuit	I-56
6.8 Connection of FCUA-DX10□/14□ Unit and Machine Control Signal	I-57
6.9 Connection of FCUA-DX11□ Unit and Machine Control Signal	I-59
6.10 Connection of FCUA-DX12□ Unit and Machine Control Signal	I-61
6.11 Connection of FCUA-DX14□ Unit and Analog Input/Output Signal	I-63
6.12 Setting of Channel No. When Using Multiple Remote I/O Units	I-64
6.13 Cables	I-66
7. CONNECTION OF THE SCAN DIO	I-67
7.1 Outline	I-67
7.2 Hardware Interface	I-67
7.3 Connections	I-70
8. CONNECTION OF HIGH-OUTPUT DIO UNIT	I-75
8.1 High-output DIO Unit Connection System Drawing	I-75
8.2 Control Unit Connection	I-77
8.3 Connection of Power Supply	I-78
8.4 Connection of DI/DO Signal	I-80
8.5 Example of RIO Connection	I-82
8.6 Connection of Servo Amplifier	I-83
8.7 Connection of Encoder	I-84
8.8 Connection of Sensor Signal (skip)	I-85
8.9 Handle Connection	I-86
8.10 Connector Pin Assignment	I-88
8.11 Fuse for Machine Output Circuit Protection	I-92
9. CONNECTION OF THE QY231 EXPANDED DIO CARD	I-93
9.1 Outline	I-93
9.2 Hardware Interface	I-93
9.3 Connections	I-96
10. CONNECTION OF COMMUNICATION TERMINAL	I-100
10.1 Outline of Communication Terminal	I-100
10.2 Connection of Power Supply	I-101
10.2.1 Connection of Power to 7.2-inch with LCD (FCUA-LD100/FCUA-LD10+KB20)	I-102
10.2.2 Connection of Power to 9-inch with CRT (FCUA-CT100/CT120/FCUA-CR10+KB10)	I-103

10.2.3	Power Connection to 9.5-inch EL (FCUA-EL10+KB10)	I-104
10.2.4	Power Connection to 10.4-inch with LCD (FCU6-DUT32+KB20)	I-105
10.3	Internal Connections	I-106
10.4	Connection with Remote I/O Unit	I-108
10.5	Connection of the QY231 Expanded DIO Card	I-109
10.6	Connection when Multiple Control Units are Connected	I-110
11.	Connection of External Battery Unit	I-111
APPENDIX 1	OUTLINE DRAWING	I-113
Appendix 1.1	Control Unit Outline Drawing	I-113
Appendix 1.2	Base I/O Unit Outline Drawing	I-114
Appendix 1.3	Remote I/O Unit Outline Drawing	I-115
Appendix 1.4	HR357 Card Outline Drawing	I-116
Appendix 1.5	HR377 Unit Outline Drawing	I-117
Appendix 1.6	QY231 Card Outline Drawing	I-118
Appendix 1.7	Communication Terminal Outline Drawing	I-119
Appendix 1.7.1	FCUA-CT100/CT120	I-119
Appendix 1.7.2	FCUA-KB10, EL10	I-120
Appendix 1.7.3	FCUA-CR10	I-121
Appendix 1.7.4	FCUA-KB20, LD10	I-122
Appendix 1.7.5	FCUA-LD100	I-123
Appendix 1.7.6	FCU6-DUT32	I-124
Appendix 1.7.7	Key Arrangement	I-125
Appendix 1.8	Manual Pulse Generator (HD60) Outline Drawing	I-126
Appendix 1.9	Encoder (OSE-1024-3-15-68) Outline Drawing	I-127
Appendix 1.10	Appearance of an HR591 Card	I-128
Appendix 1.11	Appearance of an HR211 Card	I-128
Appendix 1.12	Appearance of QY261 Card	I-129
Appendix 1.13	External Battery Unit Outline Drawing	I-130
Appendix 1.14	Outline and Installation Outline Drawing for Grounding Plate and Clamp Fitting	I-131
Appendix 1.15	F Installation Plate Outline Drawing	I-132
APPENDIX 2	CABLE DRAWINGS	I-134
Appendix 2.1	Cable type name: SH21 cable (Servo amplifier)	I-136
Appendix 2.2	Cable type name: SH41 cable (Remote I/O)	I-136
Appendix 2.3	Cable type name: R301 cable (DI/DO)	I-136
Appendix 2.4	Cable type name: F010 cable (I/O INTERFACE)	I-137
Appendix 2.5	Cable type name: F020 cable (Manual pulse generator)	I-138
Appendix 2.6	Cable type name: F030 cable (RS-232-C)	I-139
Appendix 2.7	Cable type name: F040 cable (Encoder)	I-140
Appendix 2.8	Cable type name: F050 cable (Additional I/O unit connection)	I-140
Appendix 2.9	Cable type name: F070 cable (+24V input)	I-141
Appendix 2.10	Cable type name: F110 cable (+24V input, power off detection)	I-141
Appendix 2.11	Cable type name: F120 cable (Emergency stop)	I-141

Appendix 2.12	Cable type name: F190 cable RS-232-C	I-142
Appendix 2.13	F240 Cable Manufacturing Drawing	I-143
Appendix 2.14	FCUA-R301 Cable Manufacturing Drawing	I-144
Appendix 2.15	FCUA-R211 Cable Manufacturing Drawing	I-145
Appendix 2.16	FCUA-R220 Cable Manufacturing Drawing	I-146
Appendix 2.17	FCUA-R500 Cable Manufacturing Drawing	I-147
Appendix 2.18	FCUA-R501 Cable Manufacturing Drawing	I-149
Appendix 2.19	Cable type name: ENC-SP1 cable (Spindle amplifier)	I-151
Appendix 2.20	Cable type name: ENC-SP2 cable (FR-TK)	I-151
Appendix 2.21	M-TM Manufacturing Drawing	I-152
Appendix 2.22	R-TM Manufacturing Drawing	I-153

APPENDIX 3 CABLE DRAWINGS..... I-154

II. MAINTENANCE MANUAL

1. EXPLANATION OF MODULE FUNCTIONS	II-1
1.1 HR071 Card	II-1
1.2 HR081/082 Card	II-2
1.3 HR111/113 Card	II-4
1.4 HR211 Card	II-6
1.5 HR325, 327, 335, 337 Cards.....	II-7
1.6 HR357 Card	II-9
1.7 HR377 Card	II-11
1.8 Memory Cassette HR4□□	II-13
1.9 HR513 Card	II-14
1.10 HR531/534/536 Cards	II-16
1.11 HR571 Card.....	II-21
1.12 HR591 Card.....	II-22
1.13 QY231 Card.....	II-23
 2. TROUBLESHOOTING	 II-25
2.1 List of Unit LEDs.....	II-25
2.2 Troubleshooting.....	II-27
2.2.1 Confirmation of trouble state	II-27
2.2.2 When in trouble	II-28
 3. DAILY MAINTENANCE AND PERIODIC INSPECTION AND MAINTENANCE	 II-32
3.1 Maintenance Tools	II-32
3.2 Maintenance Items	II-32
3.3 Replacement Methods	II-33
3.3.1 Cable	II-33
3.3.2 Durable parts	II-35
3.3.3 Unit.....	II-37
3.3.4 Control PCB	II-39
3.3.5 Memory Cassette	II-41
