

MACHINE-DATA

Machinetype	: Offset Printing Machine
Make	: Giebeler
Type	: R520 Web offset press
Year	: 1991
Control type	: conventional
Control	: Keine
Storage location	: print house
Origin	: Germany
Delivery time	: short term
Quotation	: ex works
Price	: on request

**Giebeler R520
Web offset press**

TECHNICAL DATA

width	520 mm
no. of working stations	5 Stück
total power requirement	- kW

TECHNICAL DESCRIPTION

Features:

- Paper unwinding for max.: 127 cm roll diameter
- maximum paper width: 540 mm
- maximum print width: 520 mm
- core diameter: 70 mm
- paper weight: 70 - 170 g/m
- Compressed air expansion axes for 70 mm core diameter
- Web edge control unit with remote adjustment
- 5 wet offset printing units variable from 20 inch to 25 inch with straight web run
- Printing: 5/0 color; 4/1 color; 3/2 color
- 5 wet offset printing units 24 inch cylinder circumference
- Offset plate thickness: 0.3 mm
- Clamping channel: 9.0 mm
- Turning cross between printing units 1 and 2
- Turning cross between printing units 2 and 3

Tool group

- Preferred device 24 inch
- Filing hole insert for serrated perforation
- Set of perforated disks for double use - 24 inch production
- for head-side filing perforation at 4/ 6 / 8 and 12 inches

- A letterpress unit for numbering and coding can be installed in the filing hole station can be installed.

Remaliner - punching station

- 6 single-row pin disks (HSS for smooth punching)
- 2 double-row die disks
- 2 single-row die disks

Edge trimming

- Longitudinal perforation device for max. 11 perforations
- Cross perforation device for 2 cylinders
- Perforation cylinder circumference 24 inches, pitch 2/ 4 / 6 / 8 and 12 inches
- Endless folder variable from 6 inch to 18 inch
- Rewind for 127 cm roll diameter
- 2 air clamping axles 70 mm diameter
- Light flash troposcope
- additional hand-held troposcope for backside observation
- max. running speed: 400 m/min roll/fold; 450 m/min roll/roll
- max. production speed: 350 m/min roll/fold; 400 m/min roll/roll

Grid rewinder from Schober

- Max. Working width: 520 mm
- Max. Paper web: 500 mm
- Max. Grid winding 600 mm
