

UmanoMedical

## Enhancing your bed functionality

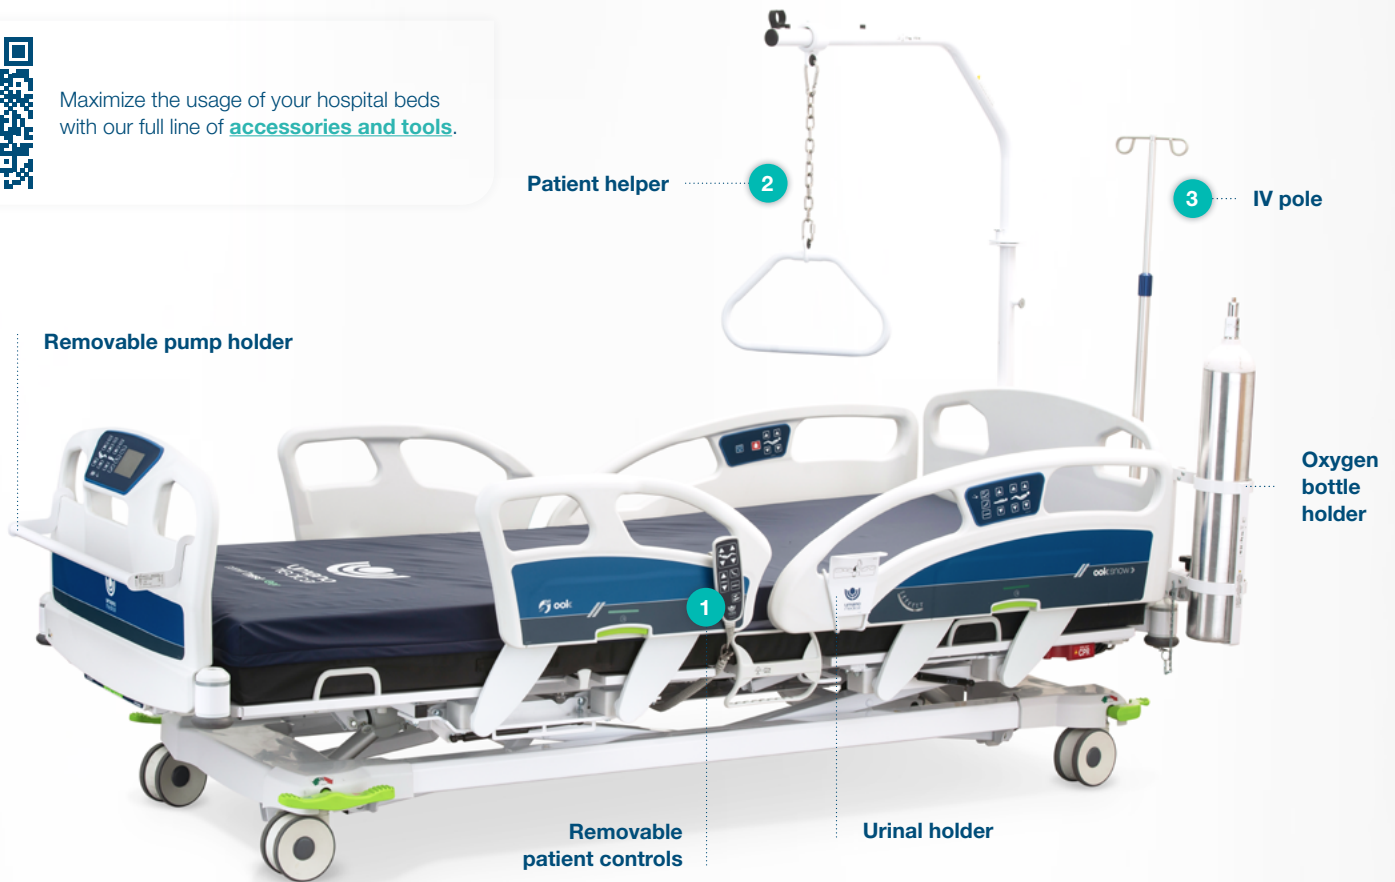

Optimize your hospital beds with our offering of accessories and tools.

At Umano Medical, we reimagine the hospital room as a space where innovation meets empathy and technology enhances care like never before. By equipping your hospital bed with the right tools and accessories, you can improve adaptability for patient needs and ease of use for staff.

Our full line of durable tools and accessories ensures that the bed is tailored to provide optimal comfort, safety, and functionality for patients, while streamlining operations for healthcare providers.

Maximize the usage of your hospital beds with our full line of [accessories and tools](#).

### Learn more about our accessories and tools

1

#### Removable patient control

The removable patient control is intended to enable patients and healthcare professionals to adjust the backrest and foot sections of the bed for comfort or clinical needs.

2

#### Patient helper

A full-body exercise device designed to enhance joint mobility by stretching major muscle groups using suspended bars. It is intended to assist patients in repositioning themselves while in bed.

3

#### IV poles

The IV pole may be fixed or foldable, depending on the model. Each hook supports a specific load capacity, contributing to a defined total maximum safe working load.

# Discover how to **optimize your hospital beds**

**Bed extender cushion**  
**For additional leg room**

To be used with the integrated bed extender.

Several lengths (4", 6", and 10") are available.

**Siderail pads**  
**For a softer feel**

Designed to cover the siderail openings on the ook snow®, ook snow MH and ook snow ALL.

Easy to install, they fit snugly over the siderails to ensure smooth siderail motion.

## Simplified bed transport and set up

### Transport cart

Designed for the ook snow platform, our unique transport cart enables vertical transportation with its autorotation mechanism to minimize effort when maneuvering beds in confined areas and narrow doorways.

### Innovative storage solution

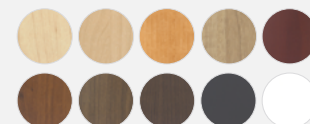

The transport cart can be used for storing beds vertically, helping you save valuable space and making bed management hassle-free.

## Furniture tailored to your needs

### Various choices of colors and laminates are available

Laminates

Acrylic top      Table base

### Overbed table FTG® series

Featuring a low-profile base for easy access under the bed, a smooth acrylic top, and easy height adjustment, you can rely on our overbed table for all your patient environments.

- Extendable version provides a larger surface area for patients to use.
- Complement your environment with our laminated top offered in a variety of colors.
