Brief technical information:

- Chinese Model: I8 -MBT-09
- Carrying Capacity: 800-2500kgs
- Beam Diameter: 800-1250mm
- Lifting Driving: Two Motors
- Battery: 24V210Ah(240Ah)
- Lifting Height: 110mm

ST-MBT-09 **Electric Warp Beam Low Lift Trolley** is designed for the easy transport of warper's beams and warp beams weighing up to 2000kg and is also suitable for longer distances, e.g. from the warping frame to the warping machine or to the warehouse. Depending on the warp beam length and the warp beam diameter, this trolley is also able to cope with gradients while transporting load. The sensitive driving and braking motions make it an uncomplicated transporter. The central drive allows a good traction, and the spring-loaded support wheels ensure good and safe driving characteristics.

QUALITY MEETS WITH EUROPEAN CE STANDARD, CERTIFICATE AVAILABLE!

- 1). Strong, robust travelling mechanism.
- 2). Well-proven hydraulic components.
- 3). Polyurethane running wheels cushion the vehicle while driving on a rough roadway surface.
- 4). Solid prismatic supports.
- 5). Rounded insertion tips avoid damage to the yarn.

Warranty: 1 year (Extension is available)

Additional information:

Status: New Machine - Made to order
Warranty: 1 year Warranty (Warranty extension is available directly with the manufacturer)
Delivery: 2 Months from receipt of order
