

**Machine Ref:** G5-HBT-09  
**Description:** Hydraulic Warp Beam Low Lift Trolley  
**Manufacturer:** Chinese  
**Quantity:** As required (Made to order)  
**Year:** New

**(New machine offered to European manufacturers only)**

**Brief technical information:**

- Chinese Model: ST-HBT-09
- Carrying Capacity: Up to 2000kgs
- Cloth Roll Diameter: 800-1250mm
- Hydraulic Cylinders: 1
- Hydraulic Unit: 1
- Centre Height: 110mm

**ST-HBT-09 Hydraulic Warp Beam Low Lift Trolley.** The prismatic forks drive underneath the warper's beams or warp beams and lift them hydraulically. An anti-spread device is used for longer forks. The load is lifted by means of some pump strokes executed with the drawbar. With the lowering handle, the load is gently deposited on the floor. Polyamide wheels ensure smooth running on even ground. Polyurethane wheels are recommended for rough ground.

- 1). Well-proven, maintenance-free hydraulic system.
- 2). Reduced pump force required.
- 3). Solid prismatic supports.
- 4). Rounded insertion tips avoid damage to the yarn.

**Additional information:**

Status: New Machine - Made to order  
Warranty: 1 year Warranty (Warranty extension is available directly with the manufacturer)  
Delivery: 2 Months from receipt of order
