

Machine Ref: I7-BM-02
Description: Chinese inspection and Winding machine
Manufacturer: Chinese
Quantity: As required (Made to order)
W. Width/Size: 1.8-4.0 meters
Year: New

(Machine offered to European manufacturers only)

Brief technical information:

- Chinese Model: ST-BM
- Max.Re-winding Diameter: 1800
- Speed: 5 - 40 m/min(Standard)
- Fabric Width: 1.8-4.0 meters
- Electric Specs: 3PHASE 380V 50HZ
- Max.Un-winding Diameter: 1800mm

ST-BM BATCHING MACHINE is suitable for a wide ranges of fabrics, specially for delicate or heavy duty fabrics. This machine is with center driven system unwinding from A-frame and center driven system rewinding to A-frame. This machine can provide synchronized fabric from input to output with constant tension control.

Direct center driven system for unwinding and direct center driven system for rewinding- "A" frame fabrics is unwinded & rewinded from non-contact center driven system specially ideal for checking delicate or heavy duty fabrics.

Auto Tensionless Checking- Speed is controlled by an adjustable light Roller Accumulator for fabric input & output automatic synchronization.

Full Width Fabric Inspection- With 60 Degree Fixed Angle Inspection Screen.

Stable Running&Easy Operation- PLC controlling, Touching Screen operation, simple!

Accurate Fabric Edge Controlling- Edge alignment error $\leq 10\text{mm}$.

Accurate Length Counting(Y/M)- Counting error $\leq 0.1\text{m/km}$ Bow/banana roller to eliminate fabric creases and roll distortions.

Available for different Fabric Input and Output Presentation- Synchronize with other production operations.

Sampling- Fabric sample can be taken by automatic linear cutter and the rest fabric can be stitched by automatic sewing machine for on going checking.(option)

Warranty: 1 year (Extension is available)

Additional information:

Status: Made to order
Condition: Complete and in excellent condition (Including 1 year warranty)
Location: United Kingdom
Delivery: 2 Months from receipt of order
