Brief technical information:

- Chinese Model: I7-ACI-I
- Speed: <60m/min
- Fabric Width: 1800mm – 4000mm
- Fabric Colour: Single Colour
- Inspection Rate: 90%
- Min Defect Size: ≤0.15mm

Automatic Camera Inspection System can be applied onto various kinds of Fabric Inspection Machines. It is suitable for a wide range of fabrics, from tension-sensitive Lycra fabrics to stable woven. The fabric will be detected with the Camera Inspection System and fabric information is recorded synchronously by the software and the computer, Truly realizes 24-hour unmanned testing.

FEATURES:

- High Intelligence, 24 Hours 100% Attention
Reduce dependence on people and ensure stable production
- High Efficient, Speed 60m/min
Comparing with manual inspection 10-15m/min, 4 times increased
Can replace 3-5 inspector, greatly save the labor cost
- High Precision, Inspection Rate Upto 90%
Comparing with manual inspection rate, 30% increased
- Convenient Scalability, ERP/SAP Compatible

Additional information:

Status: New Machine - Made to order
Warranty: 1 year Warranty (Warranty extension is available directly with the manufacturer)
Delivery: 2 Months from receipt of order
