

**Machine Ref:** I8-HBT-11  
**Description:** Hydraulic A-frame Lifting Trolley  
**Manufacturer:** Chinese  
**Quantity:** As required (Made to order)  
**Year:** New

**(New machine offered to European manufacturers only)**

**Brief technical information:**

- Chinese Model: ST-HBT-11
- Carrying Capacity: 3000/5000kgs
- Hydraulic Cylinders: 1
- Hydraulic Unit: 1
- Lifting Height: 300mm

ST-HBT-11 **Hydraulic A-frame Lifting Trolley** is small, robust and powerful. Due to its loading capacity of 3000kg, the trolley can transport A-frame weighing up to 5000kg. Safe lifting and lowering operations can be performed with this device, since no catapult effect of the drawbar can occur. There is a wide range of applications for this tractor, e.g. for wheeled plates and transport frames. The spherical head diameter and the lifting range of the spherical head can be adapted to the individual requirements.

- 1). High loading capacity.
- 2). Large, smoothly running PU wheels directly under the load. Thus, the vehicle can easily turn on the spot.
- 3). Robust hydraulic system.
- 4). Replaceable spherical head.

**Warranty:** 1 year (Extension is available)

**Additional information:**

Status: Made to order  
Condition: Complete and in excellent condition (Including 1 year warranty)  
Location: United Kingdom  
Delivery: 2 Months from receipt of order
