

**WINKLER+
DÜNNEBIER** **WD**

120

**Single unwind for window
material and silicon paper**

Suitable for reels up to 800 mm diameter and reel weights up to 150 Kg

- * Simple and safe operation
- * Precise and controlled unwind of the reel
- * Adjustable web tension
- * Ergonomically favourable loading height for simple reel change

Technical data

Reel

- * Diameter
max. 800 mm (31 1/2")
- * Width
min. 50 mm (2")
max. 330 mm (13")
- * Winding core - inner diameter
70–80 mm (2 3/4–3 5/32")
- * Weight
max. 150 kg

Material

- * Paper grades
60–100 g/m² (16–26.5 substance)
- * Window material grades
30–50 g/m² (8–13.3 substance)
- * Window material thickness
30–50 µm
- * Silicon paper grades
60–100 g/m² (16–26.5 substance)

Connected load

- * Total connected load
Electrical supply from the main machine
- * Compressed air consumption (oil free)
min. 5 bar
max. 7 bar

Dimensions

- * Length (*1)
860 mm
- * Width
780 mm
- * Height
1,685 mm
- * Weight
300 kg

(*1)

Dimensions in standard execution; space for operation and maintenance is not included
