

Technical Specification Sheet

MT5 Single Circuit ^[VSL20]

[365kg]

This lightweight single circuit stone lifter has a rated capacity of 365kg making it an excellent aid for moving stone blocks and slabs safely around a stone yard or workshop.

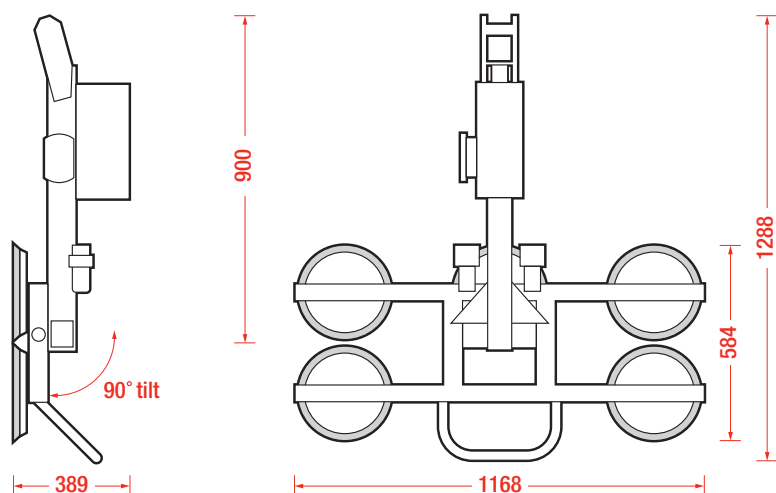

Manual tilting from vertical to horizontal means a stone panel can be easily picked up from a stack or stillage and moved around a workshop.

All power and vacuum controls are conveniently located on the vacuum frame for easy access.

Features

- 365kg rated capacity
