Universal Die Cutter

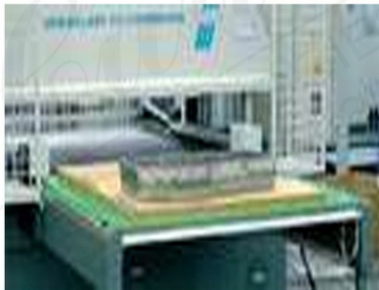

Versatile, hydraulic universal die cutter for reliable manual die cutting, ideal for companies entering this field

- * Universal application for many products
- * Effective component in the processing chain
- * Safe die cutting due to two-hand activation
- * High pressure for thicker stacks up to 60 mm
- * Minimized punching differences due to adapted speed
- * PLC control for fast and safe adjustment of die height
- * Infinitely adjustable: cutting stroke and table position

Pull-out cutting table facilitates placement of the cutting die

Stack heights of up to 60 mm can be reliably processed due to the high cutting pressure even with adjustable dies

Tools to regrind the cutting die

Table with felt layer for protective storage of cutting diet

Cutting area

- * Cutting pressure
400 KN
- * Maximum stroke
180 mm
- * Effective cutting area width x depth
1,000 mm x 1,200 mm
- * Maximum stack height
60 mm
- * Die height
min. 60 mm
max. 90 mm

Supplyment

- * Connected load
9 kVA
- * Oil volume
220 Liter

Dimensions and weight

- * Width
approx. 2,100 mm
- * Depth
approx. 2,900 mm
- * Height
approx. 1,860 mm
- * Weight
approx. 4,500 kg
