'Air'
Energy efficient diesel heating system.

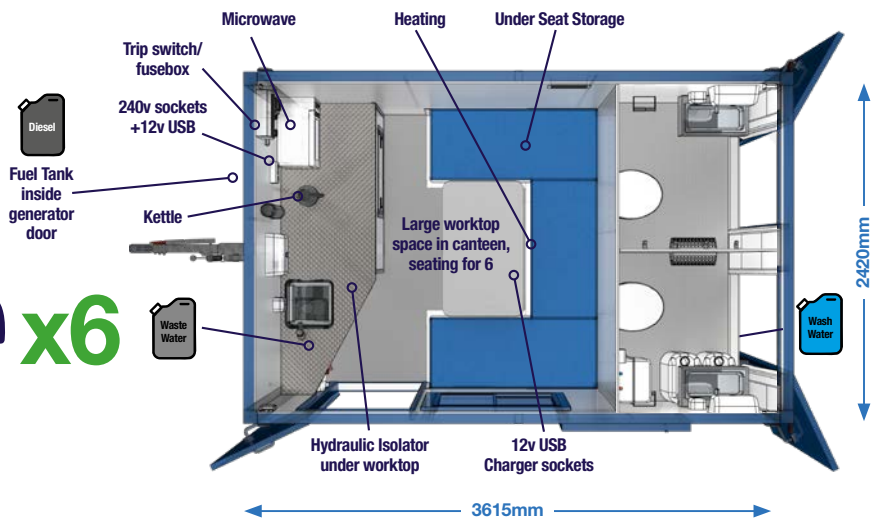

Solar
 **UPGRADE**
Reduce generator time even further.

Mobile welfare facilities ideal for any size or type of site. Easy to use, easy to move.

Energy efficient power system with diesel heating.

x6

EFFICIENT

EcoSmart technology

Minimises power usage of the generator, to operate in the most efficient way possible.

POWERFUL

Economical generator

EcoSmart welfare units use innovative hybrid eco-technology & low maintenance components.

LIGHTER + STRONGER

Easy to move

EcoSmart welfare units are loved by users for their stable towing behavior and low weight.

NO NONSENSE

30^s setup

EcoSmart welfare units have hydraulic axles. Ready to use in 30 seconds.⁽¹⁾

COMFORTABLE

Light & bright inside

Our interiors stand apart from other welfare units. High gloss finishes, light & bright make them an industry favorite.

250kg PAYLOAD
 Diesel Water 250kg Tools
Tow safe & legal
 Fully loaded & site-ready, there is a spare 250kg payload for your tools!

Comfortable cabin space for 6 persons

Hydraulic axles

Step 1
 Un hitch.
 Hand brake on.
 Turn generator on.
Step 2
 Wind up jockey wheel.
 Turn ON isolator switch in cabin.
Step 3
 Use hydraulic controls.
 Turn OFF isolator switch in cabin.
 You are now parked and secure.

Movability

- Lightweight easy to tow
- Soft cushioning Hydraulic system
- Balanced loading, with generator in the front, for better towing
- 13" wheels with the ability in the event of a puncture to change at the side of the road with ease
- Road lights and number plate holder built in, No need for a tailboard to be fitted
- Accidental collision can occur, however our corners are designed to absorb impact and are easily maintained

Facilities

- Easy to use canteen facilities; kettle & microwave
- Spacious & comfortable seating area
- Warm water washing facilities
- 2x pedal flush toilets
- Forearm wash basin in each cubicle
- All interior and exterior surfaces are tough, durable and wipe clean
- Spacious drying room with hanging clothes facility
- Plug and play sockets: USB's without the generator and 230v sockets

Sustainability

- Fully insulated wall and roof system with no cold bridging
- PIR activated LED lighting, heating & hot water without the need for the generator
- Low noise pollution
- Low fuel consumption
- Low CO2 emissions
- Automatic generator timed shut off for unnecessary fuel usage
- Low energy LED road lights
- Solar Panels to speed up battery charging & decrease generator-on time.

Security / Safety

- Dual heavy duty locking system per door
- Robust galvanised exterior with high impact resistance
- Unique hydraulic system for setup in 30 seconds

DIESEL TYPES
 Standard diesel or HVO Compatible
OIL TYPE
 SAE10W-30 (1.3L)

1 to 2 hours
 For full charge

58dBA @7m

FOOTNOTES

As part of our on-going commitment to improvement we reserve the right to alter specifications, designs or figures, without prior notice. All dimensions and weights are approximate.

(1) Figures quoted based on "optimum use", with the generator not running, no appliances used, no hydraulics used and no diesel/electric heating within the stated time period.

(2) While in un-hitched state, timed from the start of axle retract sequence, until the unit is seated and the cabin door is opened.

(a) Costs = Diesel @ £1.70p/litre. Savings = Compared to an EasyCabin standard 12 with a 6Kva generator. All figures quoted for guidance only & do not include use of hydraulics.

A full energy presentation is available on request.
