## HISTORY OF MW UK RENTALS

Established in 2015, MW UK Rentals began with a clear ambition, To provide reliable, high-quality plant, power and equipment solutions to customers across the UK.

Since then, the business has continued to grow, expanding its fleet, capabilities and customer reach while building a strong reputation for dependable service and professional support.

Today, MW UK Rentals forms part of the wider MW Hire Group, benefiting from the experience, resources and industry expertise of an established equipment hire and sales organisation.

Our continued investment in modern equipment, power solutions and specialist machinery allows us to support a diverse range of sectors, from construction and infrastructure to renewable energy and major development projects.

From our beginnings in 2015 to our continued expansion across the UK, our focus remains the same quality equipment, dependable service and solutions our customers can rely on.
