CS System™ (Complementary Suspension):  
U.S. Patent #6,192,809

UniLock™: U.S. Patent # 7,472,656

*Desirable portability for Physical Therapists in school, internship, residency or fellowship training environments.*

“The Portable Manipulation Table from Oakworks® offers an outstanding platform for performing thrust & non-thrust manipulation. The team at Oakworks® has listened to the feedback of practicing manual physical therapists & created a high value & excellent performing product. You can’t ask anything more out of a portable manipulation table!”

**Timothy W. Flynn, PT, PhD**
