Weight
325 lbs (147.3 kg)

1 year warranty

**Brand new
upholstery**

Save money

20% - 50% on podiatry chairs
by buying refurbished

Features

The 491's solid steel base makes the chair extremely stable. You work with more confidence. And, your patients feel less anxious, especially during delicate otolaryngologic procedures.

The low 22" height makes mounting and dismounting easy. The high 31" height lets you put patients at your most comfortable working height.

Power back goes and upright 90° angle to completely flat. The auto-return button quickly returns the patient to the dismount position. Power controls are located on both sides of the chair's back. An optional foot control that lets you maintain a sterile field may also be ordered.
