

ERGODISC FLEXX

Cordless multiple speed single disc machine
Ultimate flexibility, ultimate freedom

TASKI®The **ULTIMATE**
Cleaning Machines™

Ultimate flexibility, ultimate freedom

Cordless multiple speed single disc machine

Harnessing the latest digital motor technology, TASKI has cut the constraints holding back the single disc rotary cleaning machine.

With no cord to worry about, you achieve maximum safety. With multiple speeds, you have maximum flexibility to cover heavy duty and daily floor care tasks. ERGODISC FLEXX could be the only single disc machine you'll ever need.

Cordless

No cord means no trip hazard and no risk of electric shock. Use anywhere, anytime, with no constraints. Perfect for public areas, places where outlets aren't accessible, and transportation cleaning.

97% reduction in avoidable unproductive time normally spent on preparation, safety checks and clean down.

Multiple speeds

All heavy duty, low speed and high speed applications are covered with three speed options.

- Heavy duty/Eco - sanding, diamond grinding, Twister
- Low speed - stripping & scrubbing
- High speed - spray cleaning & buffing
- 3-in-1 machine means 66% savings on machines & accessories

Brushless digital motors

Smaller, more efficient digital motors with little or no maintenance means less service visits for lower carbon footprint and costs. 40% reduction in energy and 1,640 lb. / 744 kg of CO₂ saved compared to cable machines.

36V Lithium battery

Up to 2-hour run time depending upon application and up to 2000 cycles for extended longevity.

36V fast charger

With a short 1-hour recharge time, infinite autonomy is possible by using two batteries. Recharge the first battery while using the second battery; then swap when needed.

New dashboard

Choose low, medium or high speed at the press of a button

New digital motor

Delivers multiple speeds and maximum battery autonomy

Ergodisc handle

Proven ergonomics and fully adjustable handle reduces fatigue and improves productivity

Low profile base

Improved visibility and profile makes edge cleaning easy even under furniture and fixtures

New battery compartment

Simple load and click makes battery changing easy

New dispensing unit & Foam Generator

3 solution options:

1. 2.6 gal. / 10L solution tank for wet tasks
2. Spray unit for spray cleaning
3. Foam generator for dry foam carpet shampooing.

Oversized wheels

Tested and proven over many years to make transport easy and convenient

Dashboard & multiple speeds

Speed	RPM	Applications
HD / Eco	120	Heavy duty / max autonomy
Low / STD	150	Low speed applications
High	350	High speed applications

TASKI IntelliPower 36V Li-Ion battery & charger

36V battery	36V charger
Up to 2-hour run time. Up to 2000 cycles.	Recharge 1-hour*. Infinite autonomy is possible with 2 or more batteries. *1.5 hours 100% / 1 hour 80%
