Washing recommendation	°C	60
Dryer temperature	°C	60
Quantity	Piece(s)	1
Weight per product / Weight per m ²	kg	0.1
Package weight	kg	0.2
Dimensions (L × W)	mm	500 / 150
Dimensions, packaged	mm	500 × 150 × 10

Application

Spray method

The cleaning water is applied to the floor directly in front of the mop and the surface is then wiped.

Preconditioned method

For optimum results, dampen the mop with cleaning water amounting to 180 % of its own dead weight.

Bucket method

For optimal moisture and a single-step wiping process, dip the mop fully into the cleaning water, allow it to absorb as much water as possible and then wring it out in the press.

Properties

- Suitable for dry restoration of protective films
- Can be used with all conventional folding holders
- Simple: quick and easy change of the mop
- Suitable for deep cleans and maintenance cleaning

Washing instructions

- Do not wash with other textiles
- Do not use bleach, softener or strongly alkaline detergents
- Thoroughly rinse the textile before washing it
- Washing or drying at high temperatures can damage the fibres

⁹ Compliance with or use of recommended temperatures and detergents. In addition, the use of a dryer, especially at higher temperatures, may reduce the lifetime considerably.
