

REINVENT HOW THE WORLD CLEANS

Canister Vacuums

V08C | V12C | V16C

Inspired by the demands of the contract cleaning sector, this range of commercial dry canister vacuums offers exceptional value through a smart balance of performance, adaptability, and efficiency.

- Prioritize operator comfort with enhanced ergonomics, straightforward controls, and simple operation.
- Feature compact, modern designs.
- Meet the needs of today's Facilities Cleaning Managers by offering solutions that are small, lightweight, and reliable.

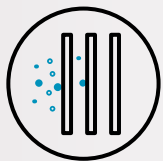

Canister Vacuums

The role of a Dry Canister Vacuum can be very different between one user and the next, vacuuming hard or soft floor, sofas or curtains, in large areas or small rooms.

Tennant canister vacuums are available in three models which all offer:

Efficient and ergonomic design, tailored to help users work without extra strain.

3-stage filtration incorporates a High Efficiency (HEPA H13) filter which enables floors to be cleaned while maintaining good air quality.

Quiet performance, engineered so that floors can be cleaned without disrupting work nearby.

Telescopic tubes enhance ergonomic comfort by adjusting to the operator's height, reducing strain and improving vacuuming efficiency.

V08C

Dry Canister Vacuum

A compact and easy-to-use choice for maneuvering in small spaces.

- Telescopic tube
- Tube parking position and cable hook
- Foot-activated on/off switch
- On-board tool storage
- 3-stage filtration (with HEPA filter as standard)
- Fast installation of filter bag and accessories
- High quality flexible hose
- Sanitized polyester filter

V12C

Dry Canister Vacuum

An efficient and powerful choice for frequent cleaning and maneuvering in tight spaces.

- 3-stage filtration (with HEPA filter as standard)
- Foot-activated on/off switch
- Full Bag indicator
- Telescopic tube
- Detachable cable
- On-board tool storage
- Fast installation of filter bag and accessories
- High quality flexible hose
- Sanitized polyester filter

V16C

Dry Canister Vacuum

Quiet, high-performing vacuum for many applications, with a high-capacity tank.

- 3-stage filtration (with HEPA filter as standard)
- Foot-activated on/off switch
- Full bag indicator
- Telescopic tube
- Detachable cable
- On-board tool storage
- Fast installation of filter bag and accessories
- High quality flexible hose
- Polycarbonate filter
