

WRB 4000 Bio

The WRB 4000 Bio chemical-free system for biological water recycling in car washes enables up to 98% less fresh water to be used. Here, the waste water is converted into clean reclaim water.

1 Very high reclaim water quality

- Optimum water quality with no cloudiness.
- Reclaim water with no odour.

2 Compact design

- Can even be installed where space-saving is a priority.
- Gravel filters which are already available can be retrofitted.

3 With type approval

- Maximum reclamation according to Appendix 49 AbwV.
- No oil separator required.

4 Biological waste water treatment

- Reliable decomposition of cleaning agents and drying aids.
- Without the use of flocculation agents and other chemicals.

WRB 4000 Bio

Technical data

Order no.		1.217-191.0
EAN code		4054278260143
Current type	Ph / V / Hz	3 / 400 / 50
Connection load	kW	6
Flow rate	l/h / l/day	4000
Weight	kg	340
Dimensions (L × W × H)	mm	1000 × 780 × 2000
