

GS Workstation 50 & GS Charging Station 40/50

powered by Gausium Robotics

Workstations & charging stations for Ecobot robots

Used for: GS Ecobot 50 Pro & GS Ecobot 40 robots

Full autonomy

Two options available:

The Workstation for emptying, refilling & recharging.

The Charging Station for recharging the battery only.

GS Workstation 50

The workstation is currently available for the Ecobot 50 model. Designed to increase the uptime of the robots and reduce human intervention. By docking with the workstation, the robot can automatically perform:

- Water emptying
- Water / chemical refilling
- Battery recharging

The GS 50 Workstation requires access to water, electrical and drainage at its docking location. The robot will automatically return to the workstation to recharge itself when battery is low and automatically resume its previous task when charging is complete.

GS Charging Station 40/50

Designed to increase the robots' power endurance. Available for use with both GS Ecobot 40 and GS Ecobot 50 models. The robot will automatically return to the charging dock to recharge itself and automatically resume its previous task when charging is complete.

The ULTIMATE
Cleaning Machines™

GS Workstation 50 & GS Charging Station 40/50

GS WORKSTATION 50 TECHNICAL DATA

Length	450 mm	17.7 inches
Width	480 mm	18.9 inches
Height	1,400 mm	55 inches
Weight	30 kg	66 lb
Rated Voltage	110-220 VDC	
Max. Output Power	1,000 W	1.34 hp
Operating Temperature	-10 ~ +45 °C	14 ~ 113 °F
Operating Humidity	20% ~ 75% RH	
Storage Temperature	-40 ~ +45 °C	-40 ~ 113 °F
Storage Humidity	20%~93% RH	

GS CHARGING STATION 40/50 TECHNICAL DATA

Length	450 mm	17.7 inches
Width	420 mm	17.5 inches
Height	615 mm	24 inches
Weight	25.5 kg	55 lb
Rated Voltage	110-220 VDC	
Max. Output Power	900 W	1.2 hp
Operating Temperature	-10 ~ +45 °C	14 ~ 113 °F
Operating Humidity	20% ~ 75% RH	
Storage Temperature	-40 ~ +45 °C	-40 ~ 113 °F
Storage Humidity	20%~93% RH
