

WRB 2000 BIO

Biological waste water treatment: The WRB 2000 Bio can turn waste water from wash systems into up to 2000 litres of clear reclaim water per hour and then feed it back into the circuit. All this without any chemicals.

1 Very high reclaim water quality

- Optimum water quality with no cloudiness.
- Reclaim water with no odour.

2 Compact design

- Can even be installed where space-saving is a priority.
- Gravel filters which are already available can be retrofitted.

3 With type approval

- Maximum reclamation according to Appendix 49 AbwV.
- No oil separator required.

4 Biological waste water treatment

- Reliable decomposition of cleaning agents and drying aids.
- Without the use of flocculation agents and other chemicals.

WRB 2000 BIO

Technical data

Order no.		1.217-190.0
EAN code		4054278260150
Current type	Ph / V / Hz	3 / 400 / 50
Connection load	kW	4
Flow rate	l/h / l/day	2000
Weight	kg	340
Dimensions (L × W × H)	mm	1000 × 780 × 2000
